

# Hoe één slechte natie miljarden kan dodenover de hele wereld - - Met één leugen!

---

[goodnewsaboutgod.com/studies/birdflu.htm](http://goodnewsaboutgod.com/studies/birdflu.htm)

## Als de slechte leiders van een slechte natie dat willen:

- Angst, chaos en terreur creëren in de hele wereld.
- De rechten van burgers in elke natie in de wereld afnemen...
- Een wereldwijde pandemie en uitroeiing van een groot deel van de bevolking van een land creëren door gedwongen vaccinaties die in het geheim levende bacteriën en virussen bevatten voor AIDS, herpes, hepatitis en pokken, alsmede bewaarmiddelen gemaakt van kwik die hersenbeschadiging en autisme veroorzaken.
- Elk land in de wereld controleren door de Wereldgezondheidsorganisatie (WHO) toe te laten en hun medisch-politieke noodapparaat over te nemen en embargo's of quarantaines op te leggen aan het hele land.
- De Posse Comitatus Act van 1878 afschaffen, die het het leger verbiedt deel te nemen aan politiewerkzaamheden op Amerikaans grondgebied. Deze wet verbiedt de regering specifiek het leger tegen haar eigen burgers in te zetten. (Deze Posse Comitatus Act werd ernstig geschonden in Waco, toen Amerikaanse militaire troepen werden ingezet tegen de Branch Davidians).
- Help hongersnoden creëren om een groot deel van de wereldbevolking uit te roeien door de voedselvoorziening van elk volk uit te roeien, door hun kippen, kalkoenen en andere vogels die als voedsel worden gebruikt te doden.
- De staat van beleg afkondigen en de grondwet opschorten.

Het enige wat ze hoeven te doen is **uit het niets...**

de vogelgriep "pandemie" **HOAX!**

Bijna dagelijks overstelpen de kranten, radiostations en televisieprogramma's ons met nieuws over de komende vogelgriep-"pandemie" en de noodzaak om vaccins te ontwikkelen en verplichte vaccinatieprogramma's in te stellen - - - voor IEDEREEN!

President George W. Bush heeft herhaaldelijk gesproken over een "Militaire overname in geval van een griepuitbraak." (CNN 4 & 5 oktober 2005) en mogelijke quarantaine van de slachtoffers van de vogelgriep! "Ik ben bezorgd over wat een uitbraak van vogelgriep zou kunnen betekenen voor de Verenigde Staten en de wereld," vertelde de president aan verslaggevers tijdens een Rose Garden persconferentie.

De Posse Comitatus Act van 1878 verbiedt het leger deel te nemen aan politiewerkzaamheden op Amerikaans grondgebied. Hij werd uitgevaardigd om de regering te verbieden het leger te gebruiken om de burgers van haar eigen land te controleren of aan te vallen. Bush begon de mogelijkheid te bespreken om deze wet te veranderen of te elimineren in de nasleep van de trage reactie van de regering op de burgerlijke onrust na de orkaan Katrina. Als dit gebeurt, zou het de regering van de Verenigde Staten toestaan om militaire troepen in te zetten tegen haar eigen volk (zoals reeds gebeurde in de Waco tragedie).

### **Symptomen van vogelgriep**

Laten we de alom aangekondigde (veronderstelde) komende vogelgriep-pandemie eens onder de loep nemen en de mogelijke gevolgen ervan voor de VS en de wereld!

#### 1. Wat zijn de symptomen van vogelgriep bij mensen?

Volgens de website van de Wereldgezondheidsorganisatie (WHO) ([www.who.int/csr/don/2004\\_01\\_15/en/](http://www.who.int/csr/don/2004_01_15/en/)), zijn de symptomen van **vogelgriep** (type H5N1):

Koorts

Keelpijn

Hoest

En mogelijk, virale longontsteking

De website van de (CDC) Centers for Disease Control ([www.cdc.gov/flu/avian/gen-info/facts.htm](http://www.cdc.gov/flu/avian/gen-info/facts.htm)) geeft de volgende symptomen voor **vogelgriep**:

Koorts

Hoest

Keelpijn en spierpijn

En mogelijk, longontsteking

Een ander deel van de website van de CDC op [www.cdc.gov/flu/avian/professional/han020405.htm](http://www.cdc.gov/flu/avian/professional/han020405.htm) geeft de volgende symptomen voor vogelgriep:

gedocumenteerde temperatuur van >38 graden C

(>100.4 graden F ), EN een of meer van de volgende:

hoest,

keelpijn,

kortademigheid, EN

Voorgeschiedenis van contact met pluimvee (bv. bezoek aan een pluimveebedrijf, een huishouden dat pluimvee kweekt of een vogelmarkt) of een bekend of vermoedelijk geval van influenza A (H5N1) bij de mens in een door H5N1 getroffen land binnen 10 dagen na het begin van de symptomen.

**Let op: Een temperatuur van 100,4 graden Farenheit kan op een warme dag ontstaan bij een volledig gezond persoon die GEEN enkele ziekte heeft! Dit is een medisch feit.**

Hoesten kan het gevolg zijn van een verkoudheid, allergie, astma, luchtvervuiling, bepaalde medicijnen, roken of vele andere oorzaken.

**Al deze symptomen zijn niet-specifiek**, hetgeen betekent dat zij kunnen voorkomen in elke combinatie met tal van medische aandoeningen die niets te maken hebben met vogelgriep OF gewone griep.

De overheid kan dus iemand voor onbepaalde tijd in quarantaine plaatsen en zijn baan en inkomen in gevaar brengen als hij of zij **op een warme dag hoest!** (Denk eraan, de symptomen zijn: een temperatuur van >100,4 F EN een of meer van de volgende: hoest, keelpijn, kortademigheid, OF contact met een vogel.

2. Wat zijn de symptomen van **gewone griep** (NIET vogelgriep)? Deze worden ook gegeven op de website van de CDC op [www.cdc.gov/flu/keyfacts.htm](http://www.cdc.gov/flu/keyfacts.htm). Het zijn de volgende:

Koorts van 100,4 graden F of hoger.

Hoofdpijn

Extreme vermoeidheid

Droge hoest

Keelpijn

Lopende of verstopte neus

Spierpijn

Maagsymptomen, zoals misselijkheid, braken en diarree, kunnen ook voorkomen, maar komen vaker voor bij kinderen dan bij volwassenen.

**3. Vraag:** Hoe onderscheidt iemand de symptomen van AVIAN FLU (vogelgriep) van de symptomen van REGULIERE FLU?

**Antwoord:** Als arts kan ik u zeggen dat het onmogelijk is het verschil te zien!

"Hoeveel mensen sterven elk jaar aan REGULIERE FLU (NIET vogelgriep)?

"De Centers for Disease Control (CDC) stelt: "Elk jaar sterven in de Verenigde Staten gemiddeld 36.000 mensen aan griep."(<http://www.cdc.gov/flu/keyfacts.htm>).

**Maar dit is een opzettelijke misleiding door het CDC!**

"Hieronder het werkelijke aantal sterfgevallen door griep van 1999 tot 2002 uit de CDC National Vital Statistic Reports

([http://www.cdc.gov/nchs/data/nvsr/nvsr52\\_13.pdf](http://www.cdc.gov/nchs/data/nvsr/nvsr52_13.pdf)):

753 doden in 2002 (blz. 16 van het verslag)

257 doden in 2001 (blz. 16 van het verslag)

1.765 doden in 2000

1.665 doden in 1999

"Hoe komt de CDC van 753 griepdoden tot de uitspraak dat er jaarlijks 36.000 griepdoden zijn?

"Het CDC National Vital Statistic Report voor 2002 vermeldt Influenza en Pneumonie als<sup>7e</sup> doodsoorzaak in 2002. U raadt het waarschijnlijk al - **slechts 753 van die sterfgevallen waren griep-geassocieerd** en de rest van de 36.000 waren longontsteking-geassocieerd. Als alle griepgerelateerde sterfgevallen worden verwijderd, staat longontsteking nog steeds op nummer 7. De media gebruikten het valse aantal van 36.000 sterfgevallen in hun berichtgeving - 50 keer het werkelijke aantal van 2002/2003.

"Zijn de 257 tot 1.765 gemelde jaarlijkse griepdoden van 1999 tot 2002 wel juist?

"Nee. Het is niet mogelijk om het werkelijke aantal door de griep veroorzaakte sterfgevallen te bepalen, omdat de **CDC geen overlijdensaktecategorie** heeft voor sterfgevallen die **alleen** door de griep zijn veroorzaakt. De CDC heeft drie basiscategorieën van griepsterfgevallen:

1. griep plus longontsteking
2. griep plus andere respiratoire verschijnselen/symptomen
3. griep plus andere verschijnselen/symptomen (niet-respiratoir)".

"Gezondheidswerkers kunnen proberen de legitimiteit van het combineren van griepdoden met longontstekingdoden te rechtvaardigen met de verklaring dat "griep leidt tot longontsteking". Maar **de feiten ondersteunen** deze frequente, brede onjuiste verklaring van gezondheidswerkers **niet**.

"De American Lung Association (ALA) beschrijft dat longontsteking meer dan 30 verschillende oorzaken heeft (één daarvan is het griepvirus). Noch het CDC, noch de ALA kennen de specifieke oorzaken van de longontstekingen die tot de dood hebben geleid. We

weten echter wel dat griep niet de belangrijkste oorzaak is.

"Houd in gedachten dat het **griepvaccin geen bescherming biedt tegen bacteriële infecties** . Het National Institute of Allergy & Infectious Disease en andere gezondheidsinstanties schatten dat één enkele bacterie - streptococcus pneumoniae - verantwoordelijk is voor 15% tot 50% van ALLE gevallen van longontsteking in de VS, inclusief tot 40.000 doden per jaar(<http://www.niaid.nih.gov/factsheets/pneumonia.htm>).

"Longontsteking wordt ook veroorzaakt door andere bacteriën, zoals Staphylococcus aureus (stafylokok), Kinkhoest, Streptokokken en Mycoplasma pneumoniae (een veel voorkomende oorzaak van "wandelende" longontsteking). Er zijn ook veel niet-infectieuze oorzaken van longontsteking, zoals astma, aspiratie van vloeistoffen, immunodeficiëntie, enz.

"Het is dus niet erg geloofwaardig om te beweren dat griep longontsteking veroorzaakt, terwijl uit de gegevens blijkt dat griep slechts een kleine minderheid van de gevallen van longontsteking veroorzaakt."

### **Mijn gesprek met de CDC**

Enkele maanden geleden belde ik het CDC en sprak met een van de artsen van de "Flu Division". Ik noemde mezelf bij naam en als arts, en hij gaf me zijn naam en functie. Ik vroeg hem hoe een arts als ik "vogelgriep" kon onderscheiden van "gewone griep". Hij antwoordde: "Dat kun je echt niet."

Ik vroeg hem, als ons artsen wordt gevraagd huis aan huis te controleren op mensen met vogelgriep, met de mogelijkheid van quarantaine van de patiënt (voor hoe lang?) en de mogelijkheid dat de quarantaine ertoe leidt dat de persoon zijn inkomen of zelfs zijn baan verliest, hoe kunnen wij dan "vogelgriep" onderscheiden van de "gewone griep"? Hij beaamde dat dit vrijwel onmogelijk is.

Toen vroeg ik hem waarom president George W. Bush publiekelijk QUARANTINE overwoog voor deze patiënten? Zijn antwoord was: "Dat heeft hij niet van ons hier bij het CDC. Dat is allemaal politiek!"

### **Maar nu praat de CDC over quarantaine. Ik denk dat ze de boodschap begrepen hebben.**

Onlangs besprak Julie Gerberding, M.D., directeur van het CDC, publiekelijk de mogelijkheid van quarantaine als methode om de "vogelgriep" onder controle te krijgen, ook al geven ze zelf toe dat het onmogelijk is "vogelgriep" van "gewone griep" te onderscheiden.

## **Hoe past SARS in dit geheel? Wat zijn de overeenkomsten tussen vogelgriep en SARS? (volgens de CDC's eigen website)**

1. Ze hebben IDENTIEKE symptomen:

Koorts van 100,4 graden F of hoger.

Hoofdpijn

Algemeen ongemak en lichaamsspijn

Mogelijk een droge hoest met milde ademhalingsymptomen

NU is de vraag hier natuurlijk: Hoe onderscheidt men de symptomen van "Vogelgriep" van "SARS"?

Antwoord: **Het is onmogelijk!**

**"Vogelgriep," "SARS, en gewone griep hebben allemaal dezelfde symptomen!**

Hoe interessant!

**SARS werd "aangekondigd" als een komende, angstaanjagende pandemie!**

Maar hoeveel mensen zijn er aan SARS **gestorven**?

Volgens de website van de Wereldgezondheidsorganisatie (WHO) zijn de statistieken voor SARS per 21 januari 2005 als volgt:

a. 8439 mensen - **wereldwijd** - zijn "getroffen" - wat dat ook moge betekenen! Betekent dit dat zij de ziekte "SARS" hebben opgelopen maar niet zijn gestorven, of betekent dit dat zij "getroffen" zijn omdat zij of iemand in hun familie slechts aan SARS zijn **blootgesteld** maar niet ziek zijn geworden? De Wereldgezondheidsorganisatie vertelt het ons niet.

("Getroffen" is GEEN medische term en de WHO legt niet uit wat ze bedoelen. Het klinkt alsof de Wereldgezondheidsorganisatie probeert de cijfers groter te laten klinken dan ze in werkelijkheid zijn).

b. En 812 doden **wereldwijd - over een periode van de laatste 3-4 JAAR!** (Als we ook maar iets mogen geloven van de cijfers die we via de commerciële media ontvangen!)

**Laten we dit in perspectief plaatsen!**

Weet u dat **in de VS ALLE dagen meer dan 1400 Amerikanen sterven aan een hartziekte?**

Vergeet niet, dat is **elke dag !** In slechts **één land!**

Het is absolute **NONSENSE om "SARS" te classificeren als een potentiële pandemie!** Dit is NIETS meer dan **pure propaganda! 812 doden door SARS - wereldwijd - in 3-4 jaar - vergeleken met 1400 doden per DAG door hartziekten**

in dit land alleen!

## **Maar SARS verspreidde zich niet snel genoeg om een pandemie te veroorzaken.**

Omdat "SARS" zich niet snel genoeg van land tot land verspreidde om de Pandemie te creëren die was voorspeld (en gepland door de Nieuwe Wereld Orde) - moest er iets anders worden gedaan!

Ze moesten ontwikkelen -

## **"SARS' met vleugels. - Vogelgriep.**

Nu kunnen zij (de WHO - geleid door de Nieuwe Wereldorde) deze ziekte van het ene land naar het andere land laten vliegen, waar ze maar willen. Bovendien kunnen ze zo een aanzienlijk deel van de voedselvoorraad van elk land dat ze willen vernietigen - de kippen, kalkoenen en andere vogels die door de bevolking van deze verschillende landen als voedsel worden gebruikt. De Nieuwe Wereldorde heeft ontdekt dat een uitstekende manier om een land te controleren, het controleren (of elimineren) van hun voedsel is. (Zie het citaat van de Verenigde Naties aan het eind van dit artikel!)

## **Is dit gewoon terreurpraat?**

Hoe onderscheidt men "Terreurpraat"? Hoe onderscheidt men waarheid van propaganda?

Let goed op de woorden in de titel van de artikelen, en op de (ongegrunde) veronderstellingen en pure speculaties van de auteur, zowel in de titel als door het artikel heen. Hier volgen enkele ECHTE voorbeelden van enkele "vogelgriep"-artikelen die de afgelopen maanden op internet en in de gedrukte media zijn geplaatst:

## **Indonesië - Nieuw verdacht menselijk vogelgriepgeval (Web-Posted 1-8-06)**

Merk op dat dit slechts een "vermoedelijk" geval is. In veel, zo niet de meeste, gevallen blijkt het "vermoedelijke" geval geen vogelgriep te zijn. Maar het publiek wordt nooit geïnformeerd, zodat de indruk blijft bestaan dat het om een echt geval gaat.

## **Mysterie - Vogelgriep migreert niet zoals verwacht (Geplaatst op 12-29-05)**

Het woord "mysterie" is bedoeld om angst bij de lezer te creëren, angst dat niemand zal weten wat te doen of hoe de veronderstelde "epidemie" te stoppen. Dit artikel suggereert ook dat de "vogelgriep" NIET met trekvogels reist. (Misschien komt dat omdat het GEEN "vogelgriep" is!)

## **Vogelgriep: hoe bezorgd moet je zijn? USA TODAY , 11 oktober 2005**

Merk op dat de titel ervan uitgaat dat je je zorgen moet maken! De ENIGE vraag is HOE bezorgd je moet zijn. Dit is slim bedacht om ongerechtvaardigde angst bij de lezer te creëren.

## **Vogelgriep kan enorme bedreiging vormen voor Amerikaanse economie Geplaatst op 12-9-05**

Vogelgriep "kan" alles in de wereld doen wat de auteur van het artikel in zijn verbeelding kan oproepen. Het gebruik van het woord "kan" maakt dit artikel tot pure propaganda. Het artikel bevat projecties die niet op feiten zijn gebaseerd, waaronder overdreven sterftcijfers en een belachelijk cijfer dat 30% van de bevolking wordt getroffen. Nergens ter wereld gebeurt dit. Dit soort propaganda is beschamend voor de auteur en beledigend voor elke lezer die een weldenkend mens is.

## **Gevaarlijke unieke H5N1 mutatie in Oekraïne? Geplaatst op 12-10-05**

Let op het vraagteken aan het eind van de titel. Niets in het artikel is geverifieerd. Dit zou niet eens gemeld moeten worden totdat het geverifieerd is. Dit soort titels (vooral als ze beginnen met het woord "Gevaarlijk!") is speciaal ontworpen om de vraag in de hersenen van de lezer te stoppen alsof het een feit is. Het is geen feit. Het is onverantwoordelijk om artikelen op deze manier te koppen.

## **Uitgebreide H5N1 mens-op-mens transmissie in Indonesië? Geplaatst op 10-22-05**

De informatie in de titel is ontworpen om als feit in de hersenen van de lezer te worden geplant - terwijl het slechts een vraag is. Dit is een opzettelijk opruiende titel. Dit is onverantwoordelijke journalistiek. Bovendien verwijst het artikel naar slechts 7 of 8 gevallen, gekoppeld aan wat genoemd wordt vier familiale "clusters". Het woord "cluster" wordt gebruikt om te impliceren dat er een aantal gevallen van overdracht van mens op mens zijn. Bij nadere bestudering van het artikel ziet de lezer dat de auteur het woord "cluster" gebruikt om slechts TWEE mensen te beschrijven. TWEE mensen kan men niet een "cluster" noemen. Nogmaals, dit is bewust misleidende en onverantwoordelijke journalistiek, bedoeld om angst te zaaien in het hart en de geest van de lezer, en om te suggereren dat deze (niet-)ziekte een epidemie zal veroorzaken.

## **Is H5N1 wilde vogelgriep in Canada? Geplaatst op 11-17-05**

Nogmaals, let op het vraagteken aan het eind van de titel. De auteur propageert de lezer opzettelijk door de vraag als een "feit" in de geest van de lezer te implanteren. Maar het is GEEN feit en mag nooit worden gemeld tenzij het een feit is!

## **Turkije H5N1 recombineert met zoogdierpolymorfismen Geplaatst op 1-14-06**

De gemiddelde lezer heeft geen idee waar deze auteur over schrijft en heeft niet de achtergrond om iets van het artikel te begrijpen. Het enige wat de lezer ziet is de titel, en in de titel de woorden "Turkije H5N1" en "Zoogdier". Dit is bedoeld om de lezer het idee in te prenten dat de "vogelgriep" muteert in "zoogdiergriep" of menselijke "vogelgriep". Het doel is, nogmaals, om angst te creëren bij de lezer dat de epidemie erger wordt, terwijl het artikel in werkelijkheid GEEN bewijs geeft om dat idee te ondersteunen.

Enkele solide regels om te beoordelen of een artikel propaganda is, zijn:

1. Let op speculatieve termen. Als de titel eindigt met een vraagteken is dit pure speculatie. Zo kan de auteur zijn wildste fantasie gebruiken bij het ontwikkelen van een scenario om angst en paniek te zaaien.
2. Let opnieuw op speculatieve termen. Als de titel het woord "zou kunnen" bevat, is dit pure speculatie. Dit stelt de auteur opnieuw in staat om elke uitkomst te verzinnen die hij verkiest.
3. Als de titel opruiende woorden bevat zoals "Gevaarlijk" "Verdacht" "Mysterie" "Bezorgd" "Angst" "Exploderen", dan is de kans zeer groot dat dit pure propaganda is om angst te zaaien.

### **Menselijke sterfgevallen door "vogelgriep"**

Hoeveel doden door menselijke "vogelgriep" zijn er tot nu toe gemeld?

De Wereldgezondheidsorganisatie (WHO) heeft ongeveer 65 sterfgevallen in Azië gemeld (het belangrijkste gebied waar deze "ziekte" vermoedelijk heerst) als gevolg van menselijke gevallen van "vogelgriep".

Volgens de Internet World Stats (Usage and Population Statistics) bedraagt de bevolking van Azië 3.622.994.130. Dat is 56,4% van de wereldbevolking.

Als we 65 (veronderstelde sterfgevallen door "vogelgriep") delen door 3.622.994.130 mensen in Azië, is het antwoord ongeveer 54 miljoen. Dat betekent dat er in Azië **EEN sterfgeval is voor elke 54 MILJOEN mensen!** - - Nauwelijks de statistieken die nodig zijn om een angstaanjagende "Pandemie" te voorspellen OF om de strijdkrachten op te roepen!

Dat zou vergelijkbaar zijn met het uitroepen van een epidemie van "vogelgriep" in de Verenigde Staten met slechts 5 of 6 doden in het hele land! Dat zou natuurlijk belachelijk zijn!

George W. Bush heeft het erover om de staat van beleg af te kondigen en het leger in te zetten, terwijl er in het hele land NIET EEN ENKEL DOOD - - - OF EVEN EEN PERSOON met "vogelgriep" is besmet!

**Dit is niets meer dan angstzaaiende propaganda!**

**En wat zijn onze informatiebronnen? Kunnen we ze vertrouwen?**

We weten dat de commerciële media, inclusief de televisie en de kranten, in handen zijn van een handvol mensen, waarvan de overgrote meerderheid zionistische joden zijn. (Als je het niet gelooft, zoek dan op het web naar de eigenaars en CEO's van de TV-netwerken en de grote kranten.) Hier zijn enkele van hun citaten, die aantonen dat we niet kunnen verwachten de waarheid te horen via hun nieuwsbronnen:

**Richard M. Cohan**, Senior Producer van CBS politiek nieuws zei: "Wij gaan onze agenda opleggen aan de verslaggeving door onderwerpen en thema's te behandelen die WIJ verkiezen te behandelen."

**Richard Salant**, voormalig voorzitter van CBS News verklaarde: "Het is onze taak om mensen niet te geven wat ze willen, maar wat WIJ besluiten dat ze moeten hebben."

**John Swinton**, voormalig stafchef van de New York Times, door zijn collega's "de decaan van zijn beroep" genoemd, zei in 1953: "Er bestaat niet zoiets. . . als een onafhankelijke pers. . . Als ik mijn eerlijke meningen zou laten verschijnen in één nummer van mijn krant, zou mijn beroep binnen vierentwintig uur verdwenen zijn. Het werk van de journalist is om de waarheid te vernietigen, te liegen, te verdraaien, te belasteren, te vleien aan de voeten van de mammon, en zijn land en zijn ras te verkopen voor zijn dagelijks brood. Wij zijn het gereedschap en de vazallen van rijke mannen achter de schermen. Wij zijn de springers, zij trekken aan de touwtjes en wij dansen. Onze talenten en onze levens zijn allemaal eigendom van andere mannen. Wij zijn intellectuele prostituees.

Het behoeft geen betoog dat de commerciële televisie en de kranten helemaal geen bewaarplaatsen van de waarheid meer zijn. Ze zijn op geen enkele manier betrouwbaar.

### **Hoe zit het met het internet?**

Informatie over vogelgriep is voornamelijk afkomstig van de websites van de volgende organisaties:

De Centra voor Ziektebestrijding

De Wereldgezondheidsorganisatie, en

ProMed/ISID (Internationale Vereniging voor Infectieziekten)

### **Hoe betrouwbaar zijn deze organisaties?**

#### **De Centers for Disease Control (CDC)**

Dit is een zeer gepolitiseerde overheidsorganisatie. Bijvoorbeeld, de AIDS Informatie Hotline van het CDC, waar men naartoe kan bellen om te weten te komen hoe men zich kan beschermen tegen AIDS, wordt gerund, niet door het CDC! - een groep die het hoogste percentage AIDS in het land heeft! Blijkbaar hebben ze niet geleerd - of willen ze niet oefenen - hoe AIDS te voorkomen!

Als het waar is, zoals het er sterk op lijkt, dat "vogelgriep" een bedrog is, gepleegd door de regering op het publiek om angst te creëren, persoonlijke rechten af te nemen, geld te verdienen aan vaccinaties en medicijnen voor "vogelgriep", echte pandemieën van ziekte en dood te veroorzaken door andere ziekteveroorzakende organismen in de veronderstelde "vogelgriep"-vaccins te stoppen, enorme aantallen kalkoenen, eenden en andere vogels vernietigen om te helpen bij het veroorzaken van massale hongersnood, wat

allemaal zal helpen bij het verminderen van de wereldbevolking, - - - en als een CDC-werknemer, inclusief de directeur van het CDC, weigert mee te gaan in de overheidspropaganda, wordt hij of zij ontslagen wegens insubordinatie.

**Dus het CDC is geen betrouwbare bron van informatie over de vogelgriep.**

### **De Wereldgezondheidsorganisatie (WHO)**

De Wereld Gezondheids Organisatie is de bevolkingscontrole/Euthanasie/Genocide tak van de Verenigde Naties. De WHO heeft dezelfde problemen van partijdigheid en toezicht als het CDC.

De uiteindelijke doelstellingen van de Verenigde Naties zijn 1) de herverdeling van rijkdom over de hele wereld, 2) een enorme en snelle vermindering van de wereldbevolking met het oog op "duurzame ontwikkeling", en 3) de afschaffing van natiestaten door de invoering van één wereldregering.

Samen met Illuminati leden zoals Prins Philip en Prins Charles van het Verenigd Koninkrijk., willen zij de wereld terugbrengen naar wat zij noemen een "Post-Industriële" of "Feodale Samenleving", waar er slechts drie grote klassen mensen zijn: de feodale heren (die AL het land bezitten), de bestuurders die voor de feodale heren werken, en de slaven, die het land bewerken.(Als je twijfels hebt over deze zaken, gebruik dan je zoekmachine om informatie te vinden over de Illuminati, "Duurzame Ontwikkeling", "Feodalisme", de "Georgia Guidestones - Amerika's Stonehenge", Eén Wereld Regering, en Bevolkingscontrole. Dr. Stan Monteith's website [www.radioliberty.com](http://www.radioliberty.com) heeft uitstekende informatie om je op weg te helpen).

Een efficiënte manier om de wereldbevolking terug te dringen, hebben de Illuminati gevonden, is de **opzettelijke verspreiding van ziekten**. Bertrand Russell, adviseur van verschillende presidenten, schreef in zijn boek, *The Impact of Science on Society*,

"Momenteel neemt de wereldbevolking toe... Oorlog heeft tot nu toe geen groot effect gehad op deze toename... Ik beweer niet dat geboortebeperving de enige manier is om te voorkomen dat de bevolking toeneemt. Er zijn andere manieren... Als een Zwarte Dood eens in elke generatie over de wereld zou kunnen worden verspreid, zouden de overlevenden zich vrijelijk kunnen voortplanten zonder de wereld te vol te maken... de stand van zaken zou misschien wat onaangenaam zijn, maar wat dan nog? Echte hoogstaande mensen zijn onverschillig voor lijden, vooral dat van anderen."

Duizenden jaren lang, helemaal terug tot Nero - en waarschijnlijk daarvoor - hebben dictators hun onderdanen gecontroleerd door angst en terreur! Het is nu niet anders. De nep "oorlog tegen het terrorisme", gepromoot door de Amerikaanse president George W. Bush en zijn "neo-conservatieve" zionistisch-joodse leiders, zoals Bill Kristy, Paul Wolfowitz, Richard Perle, Douglas Feith, Dov Zakheim, Natan Sharansky. Bush en zijn "Neo-Conservatieve" Zionistisch-Joodse controleurs, zoals Bill Kristol, Paul Wolfowitz,

Richard Perle, Douglas Feith, Dov Zakheim, Natan Sharansky, en anderen zoals zij, is ontworpen om Amerikanen te terroriseren zodat zij hun rechten opgeven (Lees de Patriot Acts - I & II) waardoor zij slaven worden van de Nieuwe Wereld Orde.

Wat kan de reden zijn waarom George W. Bush dit doet? Houden hij en zijn controleurs niet van ons gewone Amerikanen? Het antwoord is een duidelijk "Nee". In feite noemen ze ons "nutteloze eters!" Leaders van landen hebben zelden het beste met hun burgers voor. Als u hieraan twijfelt, lees dan *Death by Government* van R.J. Rummel, een boek dat genocide en massamoord door regeringen blootlegt. Dit boek, waarnaar uitgebreid wordt verwezen, onthult dat er veel meer burgers zijn vermoord door hun eigen regeringsleiders dan er zijn vermoord in een oorlog door buitenlandse mogendheden!

Onlangs zei generaal Leonid Ivashov, de voormalige stafchef van de Russische strijdkrachten toen de aanslagen van 11 september 2001 plaatsvonden, tijdens de Axis for Peace 2005-conferentie, en hij verklaart nu publiekelijk, dat "internationaal terrorisme NIET bestaat en dat de aanslagen van 11 september het resultaat waren van een valstrik. Wat we zien is een manipulatie door de grote mogendheden; zonder hen zou dit terrorisme niet bestaan." (Geplaatst op [www.rense.com](http://www.rense.com) 1/22/06)

Hij legt uit dat dit gepraat over "Terrorisme" het wapen is dat gebruikt wordt in een nieuw soort oorlog in samenwerking met de media, die het mogelijk maakt de internationale politiek te wijzigen en de bestaande realiteit te veranderen. Met andere woorden: "Maak de mensen bang met onophoudelijk gepraat over "Terrorisme", zodat ze hun rechten opgeven en kneedbare slaven worden in de handen van de Nieuwe Wereld Orde."

Dus de Wereldgezondheidsorganisatie van de Verenigde Naties, die ook deze mythe van de "Oorlog tegen Terreur" promoot, is GEEN betrouwbare bron van informatie over "Vogelgriep".

### **Hoe zit het met de Internet News Outlet - ProMed/ISID? Is het betrouwbaar?**

Laten we onderzoeken wie ProMed/ISID financiert.

Op hun website ([www.promedmail.org](http://www.promedmail.org) - en klik op "Over ProMed-mail") vindt u het volgende:

"ProMed-mail en ISID zijn de Gates Foundation, de Rockefeller Foundation, de Oracle Corporation, het Nuclear Threat Initiative en een anonieme donor dankbaar voor de financiële steun.

### **Wie zijn deze donoren?**

**De Gates Foundation** is opgericht door Bill Gates, een zionistische jood, om de zionistische joodse agenda te bevorderen, die dezelfde is als die van de Illuminati. Hun agenda omvat een enorme vermindering van de wereldbevolking, inclusief de Verenigde Staten, door oorlog, pandemische ziekten en hongersnood.

**De Rockefeller Foundation** heeft dezelfde agenda als de Illuminati en de Gates Foundation. David Rockefeller, lid van de Illuminati, is oprichter en lid van verschillende organisaties zoals de Trilaterale Commissie, de Bilderbergers en de Club van Rome, die tot doel hebben a) een regering voor één wereld op te zetten, b) ALLE zaken in de hele wereld te controleren en c) de wereldbevolking drastisch en snel terug te brengen van 6 miljard tot 500 miljoen, door oorlog, ziekte en hongersnood. (Verificatie hiervan is gemakkelijk beschikbaar op het internet en in vele boeken met volledige referenties).

### **De Oracle Corporation**

De CEO van Oracle is Lawrence Joseph Ellison, die op de website van Oracle Corporation als Jood wordt geïdentificeerd. In zijn biografie op die website staat: "Larry Ellison werd buitenechtelijk geboren uit een 19-jarige moeder en opgevoed door haar tante. Oracle Corporation ging in 1986 naar de beurs en stond in 1990 op de rand van faillissement toen bekend werd dat de inkomsten jarenlang "te hoog waren opgegeven". Ellison's netto waarde daalde ongeveer 3 1/2 BILJOEN na 11 september, toen de aandelen kelderden en Oracle aandelen bijna 50% van hun waarde verloren."

Het is zeker merkwaardig hoe een kleine jongen, geboren in de Bronx uit een 19 jarig alleenstaand meisje, voor zijn 50ste een fortuin kon vergaren dat groot genoeg was om 3 1/2 BILJOEN dollar te VERLOREN!

### **Het initiatief voor nucleaire dreiging**

Het Nuclear Threat Initiative wordt geleid door Ted Turner, die berucht is omdat hij een groot deel van de wereldbevolking wil elimineren.

Dus daar hebben we het. Als we ProMed/ISID gaan evalueren, moeten we ons realiseren dat de financiering (en dus de controle) komt van groepen die allemaal als doel hebben de aarde te ontvolken.

Hoe kunnen we iets geloven wat van ProMed/ISID komt? Zij willen zeker een pandemie bevorderen door propaganda! Niets zou hen meer plezier doen.

Ook alles wat afkomstig is van de door de zionistische joden gecontroleerde commerciële media moet zeer verdacht zijn!

### **Anderen die regelmatig informatie over "vogelgriep" op internet plaatsen**

Twee anderen die regelmatig informatie over "Vogelgriep" op het web plaatsen zijn: Henry Niman, Ph.D., en een vrouw met de internetnaam Patricia Doyle.

Om de juistheid te kunnen beoordelen van een persoon die informatie op het web plaatst of die als deskundige spreekt, is het noodzakelijk zijn kwalificaties te kunnen verifiëren.

### **Henry Niman, Ph.D.**

Henry Niman ontving zijn Ph.D. aan de Universiteit van Zuid-Californië in 1978 en nam een postdoctorale positie in bij de Scripps Clinic and Research Foundation, volgens zijn website. Zijn kwalificaties zijn verifieerbaar. Hij is de oprichter en voorzitter van Recombinomics, Inc., een bedrijf dat virale recombinatie volgt, een proces dat kan worden gebruikt om de ontwikkeling van vaccins te verbeteren en het mogelijk te maken vaccins te bereiden voordat virussen ontstaan," volgens zijn website, [www.recombinomics.com](http://www.recombinomics.com).

Aangezien het bedrijf van Dr. Niman sterk betrokken is bij de vaccinindustrie, en daarom aanzienlijk financieel voordeel zou hebben bij een "vogelgriep"-pandemie, zou hij zeker een echt belangenconflict kunnen hebben bij de "vogelgriep"-situatie. Veel van de informatie die hij publiceert zou zeer moeilijk, zo niet onmogelijk, te verifiëren zijn, aangezien de gevallen van vermeende "vogelgriep" afkomstig zijn uit obscure, kleine stadjes en dorpen - de kleinste "hoekjes en gaatjes" op aarde.

Hoe komt hij aan deze informatie?

Hoe komt hij aan deze informatie?

Wat zijn zijn bronnen?

Het is nu meer dan twee maanden geleden dat ik hem per e-mail deze vragen stelde, en tot op heden heb ik geen antwoord ontvangen!

### **Patricia Doyle**

Patricia Doyle (ze geeft toe dat dit niet haar echte naam is) verkiest een mysterie te blijven. Ze gebruikt de initialen Ph.D. en D.V.M. achter haar naam, maar ze weigert te zeggen waar of wanneer ze die diploma's heeft behaald. Ik heb haar rechtstreeks gemaild om die informatie te vragen en ze weigert die te onthullen.

Maar ze heeft toegegeven dat ze haar Ph.D. NIET heeft behaald, en toch blijft ze die initialen achter haar naam gebruiken. Dit is wetenschappelijke fraude!

Ze wil niet zeggen WAAR ze haar diploma's heeft gehaald!

Ze wil niet zeggen WANNEER ze haar diploma's heeft behaald!

She will not give her real name.!

This is totally unacceptable in the scientific world, and is insulting to the general public.

Why would anyone, especially a "professed" professional person, withhold this information unless she is deliberately lying about her qualifications and whether or not she actually holds these degrees.

Apparently she has shared some of this information with one individual who is not in the scientific world. But again, none of the information can be verified.

Until she comes clean and answers these questions for the entire public, she has no right to be considered an expert of ANY kind, nor should she have a forum on which to espouse her comments.

Her belligerence in deliberately withholding this information from the public, coupled with her promotion of the information on the (Illuminati/Zionist-Jewish-funded) ProMed/ISID website raises serious questions about the possibility that she is an infiltrator and a Zionist-backed disinformation agent.

So how can anyone believe anything she says?

### **So, How DO We Find Truth?**

You may ask, “How can we believe anything? How do we make a judgment on what is really going on?” The answer is, we can learn to evaluate what they are saying about this supposed “pandemic” in the following ways:

- 1) The media and the New World Order/Zionist Jewish cabal are using all sorts of hyperbole when discussing this “Bird flu,” exaggerations that are in no way warranted. (When something is REALLY going on, such as Mad Cow Disease – or AIDS, especially in the 90’s – the government was/is covering up and down-playing the truth on both issues.)
2. As mentioned above, the incidence of “Bird flu” in Asia (even if we could believe their figures) is 1 in 54 MILLION – hardly what one would call a “Pandemic”!
3. Even with ALL their efforts, the Illuminati/Zionist Jewish cabal was not able to propagandize the public enough to get them to believe the lies about SARS! So they had to create, out of thin air – “Bird” Flu – which is nothing more than SARS “with wings.”

Now they can have this “disease” flying all over the world, wherever they want it to land (and how convenient to have it land in countries that are the enemies of the Zionist Jews, such as the Arab/Muslim nations of Indonesia, Bali, Iraq, Iran, and the City of Mecca, just in time for the Muslim pilgrimage, and in countries like Turkey and Korea who are both causing political problems for Israel and it’s subsidiary – the United States.

Isn’t it amazing that the birds infected with “Bird Flu” seem to gravitate to the countries identified by George W. Bush as the “Axis of Evil!”?

SARS (remember, it has exactly the same symptoms as “Bird flu”) wasn’t able to travel fast enough from country to country to create the “world-wide pandemic” the Illuminati had planned, so they had to come up with something with wings! Voila! - - - Bird Flu! SARS with wings!

4. The commercial media is pushing the propaganda of “Bird Flu” about as hard as any propaganda I have ever seen them promote, including the prospect of forced vaccinations. The greatest Weapon of Mass Destruction they can use on this country or any other country is mandatory vaccinations, vaccines that will contain the bacteria and viruses of

multiple horrific diseases (a Super Vaccine containing numerous disease-causing live viruses and bacteria - something the CDC already admits they are developing) to be forced on EVERYONE!

Then the Illuminati will be absolutely sure to produce the “Pandemic” they desire, when billions succumb to the very diseases contained in the vaccine injection they received!

5. Real and dangerous diseases like AIDS and Mad Cow Disease, are purposely down-played and covered up by the government, even though they will eventually kill millions, and possibly billions, of people in the U.S. as well as many other countries.

But when a government purposely advertises, promotes, and exaggerates a disease, you can be sure that it's fake!

### **Why Would the U.S. Government and the U.N. Perpetuate this HOAX on America and the World?**

**Answer: Look who benefits – and How!**

**1. Follow the Money:** Imagine the profits from forced vaccinations for every person around the globe! Followed by huge profits for the medical/industrial complex from drugs used for treatment, hospitalizations, physician costs, laboratory costs, and medical personnel to enforce quarantines! The pharmaceutical, vaccine-producing, and other medically related corporations are owned by the very same people (or their close associates) who run the world. (See 1) *Bilderberg Profits from Bird Flu*, Christopher Bollyn, American Free Press, Nov. 14, 2005, 2) *World Bank To Put Up \$1 Billion To Fight Bird Flu* [www.noticias.info/asp/aspComunicados.asp?nid=116016&src=0](http://www.noticias.info/asp/aspComunicados.asp?nid=116016&src=0))

I have received numerous e-mails from Stock Market Investment companies, showing how an investor can make huge profits on the coming “Bird flu” pandemic!

**2. Power and Control:** Any individual, group, state or nation that, in any way, resists the formation of a One World Government, can be quarantined, embargoed, or imprisoned. The Rulers of the world can stifle or annihilate ALL dissent.

**3. De-population of the world:** So the world can belong solely to the rich few who rule in tyranny. They have already begun the de-population the earth by:

**War**, in almost every country around the globe

**Abortion**, and its #1 promoter - Planned Parenthood

**Infanticide** – Soon to come

**Euthanasia** – physician-assisted suicide, of the elderly and those who are ill

**Terminator seeds** – Seeds that produce fruit that does not, in turn, produce seeds (such as “seedless” watermelons). These initial seeds have been patented by the mega-corporations, so the farmer must buy new seeds every year rather than being able to save

seeds from his own harvest. In addition, the farmer can only purchase the seeds from the owners of the mega-corporations. This becomes so prohibitively expensive that the farmer goes bankrupt.

**Patented Genetically engineered food** that can be withheld at will – to promote famines

**Weather control** to make growing areas into dust bowls to engineer world-wide famines (Search the web under “Weather Control.”)

**Destruction of the food supply** of the world by killing off the turkeys, ducks and other birds used for food (because of the irrational fear of “Bird Flu”) in addition to the destruction of cows (because of the REAL threat of Mad Cow Disease – which they are presently down-playing), and sheep (because of the REAL threat of “Scrapie” which is Mad Sheep Disease). This is one of the ways they will bring about massive famines that will starve to death millions of people.

**Man-made Diseases**, (such as AIDS) bioengineered in government and military laboratories to cause super-infectious world-wide pandemics.

**Mandatory Vaccinations** developed to CAUSE (not prevent) horrible, deadly diseases in those who receive them, as well as autism, sudden infant death syndrome (SIDS) and learning disabilities resulting from the mercury and other highly toxic substances vaccines contain. (See *Vaccines: Are They Really Safe and Effective?* by Neil Miller, New Atlantean Press at ([www.thinktwice.com](http://www.thinktwice.com)))

All of these methods are designed to de-populate the earth so the world can be owned and ruled by the “favored few”, those who say by self-proclamation, that they have the right and obligation to rule the world.

Here is a quote from the **United Nations**:

**“Food is Power.**

**We use it to change behavior.**

**Some may call that bribery. We do not apologize.”**

Catherine Bertini, executive director U.N. World Food Program, Beijing, China.

U.N. 4<sup>th</sup> World Conference on Women, September, 1995.

In other words,

**“Do as we say, or we’ll starve you to death!”**

**Don’t Be Deceived!**

**The Government Has Done This Before!**

## **And They Are Doing It Again!**

The Bird Flu Hoax is NOT the first time the government, organized medicine and the pharmaceutical companies have lied to the public to bring about fear, carnage and profits. They did it with the Swine Flu Hoax in the 1970's and the vaccination-created Flu Epidemic of 1918.

Following are excerpts from the book entitled The Swine Flu Expose by Eleanora McBean, Ph.D., N.D., written in 1977 by a doctor who was THERE during the 1918 Flu Epidemic.

This booklet on Swine Flu hazards and fakery is part of a larger book on vaccination, titled, VACCINATION CONDEMNED BY COMPETENT DOCTORS. It is about time a large and comprehensive book of the long concealed facts about vaccination is brought forth. This is the largest and most informative book on the subject ever written in America. It contains data collected from medical records, army reports, and startling findings from researchers all over the world.

The book is intended to help combat the disastrous effects of vaccine promoters and their deceptive propaganda.

I have seen cancers caused by vaccinations, on the arms of people, exactly where the vaccine was injected. I have also seen paralysis and other tragedies caused by vaccinations. All these are unnecessary and avoidable by the application of information contained in the chapters of this book.

It will be noted that there are many repetitions of certain facts all through the book. There are two reasons for this. One is that some chapters are used as separate booklets like the chapter on SWINE FLU. The other reason is that the wrong information about vaccination has been drilled into the people from early childhood, so it is necessary to repeat the truth many times in order to re-program the thinking from false claims to the truth.

### **SWINE FLU ANOTHER MEDICALLY-MADE EPIDEMIC**

"Take the profit out of the manufacture and administration of serums and vaccines and they would soon be condemned even by those who are now using them"—George Starr

White M D

At the present writing, October 1976, a group of medical opportunists have taken upon themselves the dictatorial authority to declare the threat of a sweeping epidemic of SWINE FLU which they said was similar to or related to the 1918 epidemic of Spanish influenza which wiped out 20,000,000 people world-wide. This declaration was supposed to scare all the people into their vaccination centers to be shot full of experimental vaccine poisons, while they, the promoters, raked in the profits. During the big polio vaccine drive, a spokesman for ParkeDavis one of the five drug houses making the vaccine stated

"Our company will clear over \$10,000,000 on Salk vaccine in 1955 " Before they were through they had fleeced the people of over \$4 billion dollars on the Salk racket (See the chapter on POLIO CAUSED BY VACCINATION)

Most of the people had their eyes opened during the polio vaccine fiasco so now when the same poison pushers started to beat their drums again for swine flu vaccine customers, they were smart enough to see through the hoax and refuse the shots, even though the scare-head propaganda slogans said *swine flu is contagious and you can die if you don t get the shots*

However, the scare techniques and perhaps other inducements, worked on (the then acting) President Ford who has since been voted out of office—and none too soon. When the high pressure sales committee, Doctors Salk Sabin, Sencer, Mathews Cooper, etc marched into Ford's office in March (76) and told him to hand over \$135,000,000 to support their private money making racket, he handed it over like a simple child without even bothering to ask them for a guarantee that their unproved vaccine would not kill the people—as it did in other vaccine drives—or that their claims were justified.

Their claims of *safety*, effectiveness and need have all been proved to be false during the past few weeks when the vaccine killed 113 people, nation wide, and paralyzed 75 in California alone. We do not have the reports from all 50 states, but if it is the same as in Calif. that would add up to 3,675 cases of paralysis. Many coroners have been given orders by the doctors not to give out the swine flu casualties. So, we don't know all the facts yet, and we may never know unless we have a "Watergate" investigation.

### **\$5,000,000 LAW SUIT FILED AGAINST FLU PROMOTERS FOR CAUSING PARALYSIS**

A radio newscast (Jan. 77) reported that one of the paralyzed swine flu victims has filed a \$5,000,000 suit against the vaccine promoters for causing his paralysis in December of 1976. His suit is against the instigators of the flu epidemic scare, who are Dr. David Sencer of CDC (Center for Disease Control) who spearheaded the vaccine campaign, and Dr. Theodore Cooper of WHO (World Health Organization), the Health Departments which promoted the shots and the six drug houses making the swine flu vaccine. (Why not Ford also and his Congress who financed it?) His complaint was that they had put out propaganda promising that the vaccine had been thoroughly tested and was perfectly safe, and that the swine flu was contagious and people could die if they didn't get vaccinated, and that they would be protected if they had the shots, and that the side effects, if any were "inconsequential."

Dr. Edwin Kilbourne, head of the Microbiology Department at Mount Sinai Medical School (L.A. Calif.) said he thought "the cases of paralysis were only coincidence."

Paralysis is known to be a common after-effect of vaccination—any kind of vaccine—and these 75 California cases were paralyzed shortly after their flu shots—and yet, this doctor says (in effect) "forget it—maybe it wasn't the vaccine that did it." If that is the kind of teaching and slipshod guesswork that our young medical students are getting it isn't

surprising that the doctors come out of medical college all mixed up and unable to cure anything—not even the common cold or pimples. All they learn is how to suppress symptoms with poison drugs or mutilate the patients with unnecessary operations. 97% of the operations performed by U.S. doctors are unnecessary, according to the admission of doctors, themselves, who met to decide what operations would really be necessary in case of socialized medicine when there would be no profit in it for them. They decided that only about three percent (3%) would be necessary.

All the flu vaccine sales promises were lies—proved later by the deaths and disasters within a few hours after the shots.

The insurance companies which had insured the doctors and vaccine makers down through the years balked at this obvious vaccine swindle game. We wonder why Ford couldn't have taken a tip from these shrewd businessmen and also turned down the whole, questionable vaccine program. We wonder what inducements prompted Ford and Congress to let themselves be talked into financing not only the vaccine but paying the damage costs which could amount to billions of dollars judging by the large number of deaths and disasters already reported, plus those which have been hushed up by the vaccine promoters.

The most common remark we hear on the streets today is, "IT'S THE BIGGEST RIP-OFF OF ALL TIME."

The vaccine promoters and drug insurance companies, no doubt, remembered the multi-million dollar law suits following the devastating polio vaccine campaign of the 1950's when the Salk, Sabin, and Cutter vaccines caused thousands of cases of polio, death, and other disasters. The law suits flooded the courts and the vaccine promoters and drug houses had to pay out damages amounting to many millions of dollars.

The five pharmaceutical houses making the Salk vaccine were called the Rockefeller chain then, and it is the same ones now making the swine flu vaccine, with a few exceptions. The vaccine promoters wanted to dodge all financial loss—the cost of the vaccine and the damage suits, so they could make clear profit, while the taxpayers were saddled with both the payment of the vaccine and the damages, also. I doubt that the crime syndicate could run a more crooked racket than this government sponsored and financed caper, with all the profits siphoned off into the pockets of the medical and drug concerns.

If those smooth talking con-men had been holding a machine gun on Ford they couldn't have done a quicker and easier job of robbing this simple man who didn't even know enough to do a little investigating before dipping into the public till to finance a private money making scheme.

Ford was not the only guilty one in this conspiracy against the people. Most of the members of Congress gave their supporting vote.

Before leaving office Ford asked the taxpayers to give the Congressmen a substantial raise. We wonder if he wanted to reward them for their part in helping him support organized medical crime.

An AP news report in the Los Angeles Times (Dec. 3, 1976) with a headline: \$129 MILLION FEDERAL RAISE PROPOSED, says in part:

". . . Ford will put the exact rates of pay he thinks advisable into the budget submitted next month. Unless the House or Senate kills the proposals. (Are they likely to turn down a raise?) the members of the House and Senate will receive \$57,500 annually compared to the current \$44,600."

Are they worth it? Another report told us that most of our Congressmen are corporation lawyers with an eye to serving private interests. Their vote for giving \$135,000,000 of tax money to support a private medical racket (swine flu vaccine) would indicate that they are indeed working for "outside interests", and not for the good of the people who hired them to their high positions.

The same AP report also says: "The commission (to raise salaries) made it clear that it hoped to link the raises to a commitment by the three branches of government to come up with a stricter code of conduct on outside income and financial disclosures."

Does this mean that if they are given the big raise they must promise to tell the truth about what "outside interests" paid them extra to swing the "big deals" in their favor?

Public officials like this should not be given any raise at all; they should be given a dismissal and a prison sentence, plus confiscating the bribes they have taken from "big business".

#### SWINE FLU VACCINE TESTS PROVE UNSAFE

At the same time the vaccine promoters were telling Ford the vaccine was "tested and perfectly safe" they were still testing it on lab. animals, soldiers and little children. The ones who can't defend themselves.

In A REPORT TO THE CONSUMER (Sept., 75) by Ida Honorof, she presents a compilation of data from the National Institute of Health—Division of Biologic Standards, Bulletin of World Health Organization, and Dr. J. Anthony Morris, former Director of a branch of FDA Virus research. Dr. Morris' findings show that the flu vaccine, when inhaled by lab. animals "tended to enhance cancerous tumors."

Pregnant women had been on the preferred list for shots until findings indicated that certain substances in flu vaccine "could pose a serious threat of fetal damage to women who might become pregnant. . ."

In the report she reviews an article by Aurora Reich, Director of Scientific Communications, published in Indianapolis Star, which states:

"The virus itself (flu vaccine) has toxic properties, even after it is killed, which can cause fever and convulsions, especially in children. January Journal of Pediatrics carried the research of Doctors at Atlanta and Sheffield, England working together testing a purified

killed influenza vaccine. They concluded that even the purified killed vaccine is too toxic (poison) to be given to children . . . The study showed 69% of the infants ran high fever 6 to 12 hours after vaccinations, and one had convulsions."

Other studies showed that about 10% had convulsions, and one died. One doctor pointed out that "there are 9 million children under 3 years of age. If 10% of them had convulsions, that would be 900,000 with convulsions.. (and how many deaths?) The routine vaccination of infants and children has not been recommended by the Public Health Service."

How tragic that these helpless little children are being used to test poison drugs—like laboratory animals. I thought that was against the law. It's deplorable to even use animals for this, as practically all the tests are for things we do not need, such as poison drugs, vaccines, unnecessary operations, etc. Yes, all vaccines are dangerous drugs. (See the chapter on HOW VACCINES ARE MADE)

Every once in a while we hear of an honest doctor who is not afraid to speak out and warn the people against vaccines. Such a man is Dr. James A. Shannon, of the National Institute of Health. He stated: "THE ONLY SAFE VACCINE IS A VACCINE THAT IS NEVER USED."

When it was proved that the vaccine was too dangerous to be used on children it should have been condemned and destroyed before it did any more harm, because if it is too dangerous for children or anyone else, it is too dangerous for all people.

Doctors who have been questioned, admit that they are not taking the shots for themselves or their own children.

The old, the ill and the other "high risk" cases are more sensitive to poisons and more readily broken down and killed by them, and yet, the doctors and vaccine promoters advised them to be the first in line to get the shots. I think they wanted to test the risky vaccine first on them to see what would happen and if it caused death and disasters the doctors could blame it on their old age or their various infirmities.

The doctors seem to consider these sick and elderly people expendable commodities of no importance. I saw an example of this when I sat in on a vaccine promotion meeting on USC campus (L.A.) recently, when the promoters were trying to drum up business and get the students to submit to the shots.

People in the audience started to ask questions of the doctor on the stand. They asked about the vaccine death that had occurred a few hours after the shots. He passed it off lightly with indifference saying that "they would have died anyway," or "They were old and probably had ailments that killed them." he made it clear that the vaccine promoters were not going to take any responsibility for their death dealing vaccines. He was one of the teachers at the medical school at USC. God protect us from the kind of doctors he would influence.

These vaccine casualties were not listed as such or the public records. The death certificates were falsified and causes were given other than the vaccine which killed them (See the chapter on FALSIFIED MEDICAL RECORDS.)

### NO SWINE FLU EPIDEMIC

The whole swine flu scare was based on the death of only one soldier at Fort Dix, New Jersey (One report said October, 1975 and another said February, 1976). There was never any real evidence that he even had swine flu. There was a wide divergence of opinion among the doctors as to the real cause of his death. Some even tried to blame it on a walk he took when he was ill. An official diagnosis pronounced his death to be from *A-Victoria flu*, and not swine flu. All the soldiers at the camp had been inoculated with *Port Chalmers flu vaccine*, which was claimed to contain antigens to protect against all strains of flu. Shortly after the shots over 500 men got sick with the flu anyway, thus proving that the flu vaccine is a total failure and does not protect from the flu or anything else. 66 more were hospitalized at Fort Knox about the same time. We do not have the report from all the army camps but, it is quite certain there were a large number of cases of serious vaccine poisoning—no doubt, called by some other name, and death certificates falsified as is usually the case with vaccination deaths. The death certificates of vaccine poisoning usually read, "died of pneumonia" or hepatitis, or meningitis or something else.

The present flu vaccine they are using on the civilian population is just as ineffective and dangerous, and yet, it is being promoted all over the country with disastrous results. No matter how many casualties they have they are determined to use it as long as they can get away with it—because it is profitable. That is its one and only purpose.

Even if the swine flu had been the cause of the soldier's death, one case of a disease is not grounds to stage a nation-wide epidemic. It takes at least 30 cases of the same disease in the same locality to constitute an epidemic.

The vaccine promoters have been frantically trying to find at least one case of swine flu anywhere in the world to justify their custom made vaccination campaign. But they have not found one case—even among the swine. They heard of a man named Larry Hardison in Missouri who had a cold and they rushed to him to try to get a throat sample so they could make a case out of it. But he got well before they got the throat sample. Most of the cases of flu they check are caused by the vaccine itself.

There is no swine flu epidemic in U.S. or anywhere else in the world, and there is not going to be one either unless the vaccine promoters carry out their plan to vaccinate all the people; then there will be a full blown epidemic of vaccine poisoning—not flu. There are already 113 recorded vaccine deaths and that is enough to be an epidemic of vaccine poisoning.

### ALL VACCINES ARE POISON

Vaccines contain decomposed protein such as that which is taken from pustules on sick animals or putrefied eggs mixed with deadly drugs such as carbolic acid (phenol), mercury, formaldehyde (formalin), etc. Decomposed proteins can cause botulism, salmonella or other types of body poisoning. It's no wonder people drop dead after the shots.

All doctors who know the subject know and admit that all vaccines are highly toxic, and the after-effects are unpredictable. No doctor, laboratory technician or scientist can possibly determine the reaction the vaccine will have on each individual. It is impossible to know, in advance, the toleration point for poison which each person has. Therefore it is a deadly gamble—like Russian roulette—as to whether the vaccine will cause instant death (and that sometimes happens), or paralysis a few hours later, or cancer, heart trouble or TB a few years later, or kidney disease, liver damage, insanity (post vaccinal encephalitis—inflammation of the brain caused by vaccines) or some other chronic disease somewhere along the way.

Vaccine is even worse than Russian roulette because that kills only a few and they are usually other crooks, while vaccination kills thousands of innocent and trusting people.

#### FORD THE PUPPET

After the vaccine promoters "took" Ford for \$135 million, they told him to be a good boy and roll up his sleeve so they could photograph him having a shot to induce all the rest of the people to follow his example. They wanted to use him and his photo and influence as sales propaganda to sell their poison drugs. He obeyed like a puppet on a string.

No wonder the rest of the world is laughing at us. They see a fake epidemic—a mass poisoning campaign—and our national leaders dancing to the tune of the drug (vaccine) pushers.

Dr G. Nossel of the World Health Organisation said:

'You Americans ought to have your heads examined—No way would we permit it.. . There has been no proper investigation . . . The vaccine has not been properly researched.. . There are too many unknowns.'

From as far away as Australia, there are those in authority who are shocked to see that such a fraud should be permitted—even promoted by the U.S. Government, along with the medical establishment, notorious for their money making schemes.

Dr. Archie Kalokerines, medical superintendent of Colleranebri Hospital in Australia, called the swine flu immunization program "a plan for mass murder . . . If a person is susceptible, the vaccine may act as an immunological insult predisposing that person to things like pneumonia or anemia . . . If an individual is incubating another flu virus it can cause an immediate and severe attack of that disease.. . We don't know what the long term effects of this drug (swine flu vaccine) will be. It may predispose a person to cancer or other diseases . . ." (See the chapter on **CANCERS CAUSED BY VACCINATION**.)

The above statement is from an exclusive interview with the Glendale News Press (9/24/76) and reprinted in *A report to the Consumer*, by Honorof.

"Harry Nelson, Medical Editor for L.A. Times, reported on an American Cancer Society Seminar for Science Writers, and announced that microbiologists have uncovered new findings that incriminate vaccination. One of the participants was Dr. Robert M. Simpson of Rutgers University, N.J., who stressed that 'Immunization programs against flu, measles, mumps, and polio may actually be seeding humans with RNA to form proviruses which will then become latent cells throughout the body . . . Some of these could be molecules in search of a disease, which under proper conditions become activated and cause a variety of diseases including rheumatoid arthritis, multiple sclerosis, lupus erythematosus, Parkinson's disease and perhaps cancer.'" This quote is from the Honorof Report for June, 1976.

The chapter on CANCER CAUSED BY VACCINATION shows photographs of vaccine victims with cancers on the arms where the vaccine was injected.

From the NATIONAL HEALTH FEDERATION we hear, "The risks of life and health from the high incidence of fever and other side-effects of the swine flu vaccine are substantial. Public health experts estimate that approximately 15% of those inoculated will suffer disabling illness."

Our paid government health agencies who are supposed to warn us of health hazards are not doing it. It has been outsiders who have been busy spending their own time and money to find out facts and warn the people against this colossal medical fraud. One source we need to thank for this is THE NATIONAL ENQUIRER and their state-by-state probe to collect data on deaths from vaccination, cases of swine flu, if any, who started the vaccine hoax and why, etc. In their Nov. 2, 1976 article by Chuck Micheleni and Dan Schwartz, they write:

"Blundering government health experts (?) are directly to blame for the trail of deaths in the swine flu program — because they failed to warn people of vaccination dangers. And the mass inoculation program is needless —because there are no cases of swine flu in the entire world.

"Those are the charges leveled by top medical experts — who say the swine flu threat was blown out of proportion, then sold to President Ford and the American public with scandalous "horror tactics."

"Government officials are trying to scare Americans into getting shots with totally misleading TV commercials that say swine flu is contagious — and newspaper ads saying 'you can die' if you aren't vaccinated."

Actually, swine flu is not contagious at all. Like other diseases, it is a cleansing effort of the body to force out the accumulated poisons that have been injected or eaten, breathed or taken in in some other way. Coughing, sneezing, sweating (fever), vomiting, diarrhea, rashes, eruptions, etc. are the manifestations of the unloading program and should not be

interfered with by suppressive drugs or other medical meddling. Most drugless doctors say that most diseases heal normally if the patients stay at home in bed, in a quiet airy room with no food, no medicines, and no drinks except a little warm distilled water.

In case of a cold, most medical doctors say take two aspirins and drink plenty of liquids. That's bad advice because aspirin is a drastic heart poison and should be avoided entirely in all circumstances, and "liquids" — not specific enough. The patient could take that to mean coffee, tea, alcoholics, soft drinks (all of which are poison) or soups, fruit juices, ice water, etc. all of which are harmful in illness. Reasons are given in another chapter.

Although the medical and government propaganda mills sent ads to the major newspapers warning "You can die from swine flu," authorities who were willing to stick to facts were saying just the opposite. For instance, Dr. J. Anthony Morris, one of the government's top experts on vaccines, stated:

"That's absolutely false. There's no evidence that swine flu is a killer . . . It is not contagious . . . There is no evidence that swine flu will spread. It has not been isolated anywhere since it was (allegedly) found in Feb. at Fort Dix, N.J." While addressing a meeting in Los Angeles he said, "...The swine flu vaccine is worthless. There's no evidence that it will protect you against swine flu because there's been no cases of swine flu to test it against."

He also said: "Effectiveness of flu vaccine is comparatively low. Flu vaccine made from inactivated virus particles such as now being manufactured, produces the wrong kind of immunity. It elicits systemic antibody that can be measured in the blood, but does not produce the local antibody in lungs and nose needed to protect against infection to the virus if later infected.

"There is no precise way to measure the potency of flu vaccine that will be offered Americans because the standard units do not measure the mass of virus particles in a vaccine."

Dr. Morris was fired from his job because he opposed the swine flu program and pointed out the defects which showed it could be dangerous as well as entirely ineffective.

Dr. Weidman, of the University of Florida, a recognized virologist, also agrees that the swine flu vaccine is inadequate to do any good. Doctors both here and in England found that their tests on laboratory animals were not encouraging. When the dose was potent enough to kill the virus it also killed the animals and when it was weakened enough to be safe for animals and people it was too weak to do any good, and was no protection.

"So far, only 25,000,000 Americans out of a total population of 216.2 million have had the swine flu shots. And as Dr. J. Anthony Morris puts it: 'That means 191 million Americans have failed to be taken in by the hard sell propaganda. The swine flu program is a program of incredibly high costs and questionable benefits' " (Enquirer, 12/21/76).

It seems to us that some doctors are slow learners. They should have found out by this time that they can't fight poison with poison, as their poison drugs and medicines only make matters worse in the long run. Most diseases are caused by poisons either generated within the body or imposed upon the body from without such as contaminated, devitalized foods, tobacco, alcohol, coffee, vaccines, fluoride-poisoned water, all drugs, insecticides, radiation, etc. Because vaccines are all poison they do damage in 100% of the cases. The damage ranges all the way from sudden death to chronic diseases in later years.

#### VACCINE CAN TRIGGER HEART ATTACK

Dr. Selye of the University of Montreal, one of the world's foremost authorities on human stress, stated:

"After inoculations, elderly people and the chronically ill are particularly predisposed to have certain stress reactions such as heart failure." (Enquirer 12/21/76)

In spite of this and other similar findings, the vaccine promoters urged all the senior citizens, the old and ill the high risk cases to be the first in line to get their shots. Because of this mad rush for profits the promoters are guilty of causing all those needless deaths of the elderly people a few hours after they had their shots.

Dr. Cyril Wecht, of Allegheny, Pa. performed autopsies on several of the flu vaccine victims and said:

"People should have been advised to ask their doctor if the shots were safe for them, especially if they'd had heart attacks or high blood pressure — but this was not done."

What good would it do to ask their doctor? Most doctors don't know the dangers of vaccination, and if they did they wouldn't tell their patients, as long as it was profitable to them to keep silent about it. The individual doctors usually do what their medical hierarchy tells them to do, and when they are promoting a vaccination drive the doctors are ordered to comply.

My previous research on vaccination revealed many cases of sudden death from heart failure after vaccinations. As stated many times before, all vaccines are poison and when they are shot directly into the bloodstream they circulate throughout the body including the heart, in a matter of seconds, and continue to circulate and cause corrosion and malfunction of all the delicate tissues of the body. The heart valves are made of fragile membrane which is affected by the poisons, in such a way as to render it incapable of proper functioning, leading to heart failure. At the same time, all other vital organs are impaired by the same poisons.

Most doctors and coroners try to deny the obvious when protecting a favorite money making racket like vaccination. For instance, the Los Angeles County Coroner, Thomas Noguchi performed autopsies on people who had died within 48 hours after being inoculated with swine flu vaccine. His statement, published in Los Angeles Times, Nov. 2, 1976, savored of both whitewash and sales propaganda when he said: "We do not believe

the vaccine had anything to do with their deaths . . . Heart disease of various types was the cause of death in each case The patient with heart disease is clearly at risk of getting flu if he or she is not protected. Therefore, under guidance of their physician, it is advisable for such high risk persons to get their shots."

If we all followed his advice and got poisoned with the vaccines we would all be dead from vaccine induced heart failure or some other disease of blood contamination.

#### 80% OF ALL MEDICAL DOCTORS ARE UNFIT

In a KABC radio interview, recently, Edgar Berman, M.D., consultant on medical affairs to the White House and associate professor at Johns Hopkins School of Medicine made some startling statements, a few of which are as follows:

"At least some 200,000 M.D.'s practicing medicine today are guilty of incompetence. . . I estimate at least 10% of these are actually fraudulent and corrupt ... And an unfortunately small percentage — certainly less than 15% —are intelligent, hardworking, compassionate, and moral

The scramble for the dollar shows up in statistics. Approximately 1 500 000 (unnecessary) tonsillectomies a year Some 14 000 to 16,000 persons die each year because of the 2,000,000 to 3,000,000 unnecessary operations performed, and God knows how many hundreds of thousands have complications.

"Over the past 50 years doctors have been implicated in producing more infections, crippling and suffering than all the accidents caused by the combustion engine plus every illness foisted on the laborer by industry, from black lung to radiation poisoning.

"Studies at Cornell and Yale have shown that 1,250,000 hospitalizations a year are caused by prescribed drugs. And once in a hospital, you're still far from safe. Our hospitals, even the best in the land, produce over 5,000,000 cases of disease a year."

Dr. Berman wrote a book titled, THE SOLID GOLD STETHOSCOPE. It's a shocker. It "gives the low-down on the high-ups" in the medical field and has the authenticity of a man — a medical doctor — who knows the story from the inside — the seamy side. It's not only informative, it's a million laughs.

There is so much bungling, guesswork, faulty diagnosis and cover-up, both inside and outside of the hospitals, that the doctors conceal their manslaughter cases by calling them "Accidents." There are so many doctor-caused diseases that they have given them a name, "iatrogenic." It means *doctor-caused* diseases. People think they go to the hospitals to get well — to be healed, but instead, millions of them are made sicker by the treatments, and even killed by the poison drugs, operations and experiments. Most, maybe all, of the hospitals have a separate section set aside for their "iatrogenic diseases." Why are they kept separate? It is probably because the doctors don't want the visitors to see what they

have done to them, and also to use them for experimentation. They justify this by claiming they must experiment to find a cure for the diseases they have caused. But they use the same deadly drugs and treatments that caused the diseases in the first place.

The famous Dr. Charles Mayo, in a radio broadcast a number of years ago was honest enough to admit that with all their latest equipment and medical training at the Mayo Clinic, they are able to get only 20% of their diagnoses and treatments right. The autopsies on the dead bodies showed them what they did wrong.

An article in Dr. Shelton's Hygienic Review (Dec. 76) quotes some interesting statements from a group of 18 internationally known scientists. The Chicago Tribune (Dec. 22/76) also carried the article by Ronald Kotulak. Here are a few of their remarks:

The shocking conclusion is that drugs are so widely misused that only 10% of the medications taken in the industrialized world are for disease-related purposes.

"They point out that there is no such thing as a safe chemical, a fact that doctors tend to forget and that most people do not know . . . Doctors frequently prescribe drugs even though they know little about them, and the people eagerly take them. The price which the patients pay in terms of adverse side effects are horrendous.

"Studies in America and England have revealed that, out of every 20 hospital patients, one is admitted because of the harm done by drugs.

"Once in the hospital the risk increases. Up to 18% of the patients suffer from bad side-effects caused by medications prescribed in the hospitals.

"The annual cost of treating this unnecessary and preventable abuse of medications is close to \$3 billion,' said this international Commission of Internal Pollution — a staggering waste of money and health

"Who is to blame for our medicinal extravaganza? The responsibility must be shared by the drug industry, the government agencies that oversee them, the doctors and those who take the drugs.

"Another breakdown occurs when it comes to test new drugs on people. A spot check conducted by the Food and Drug Administration in 1973 disclosed that 20% of the doctors doing these clinical trials were guilty of unethical practices, including prescribing wrong doses and falsifying records."

## DRUGS CANNOT CURE

All chemicals and drugs are inert, foreign substances which act as irritants when taken internally. They do not have power to act in the body or cure anything. The only reason why they seem to cause some changes which people like to believe are curative is that the internal defense system tries to eject this unwanted foreign matter, and that sets up a reverse action to remedy the harm done by the drugs or chemicals. This taxes the bodily reserves and delays healing. In the case of some drugs it makes healing impossible.

I talked to a young medical student who said that the med. schools were dominated by the drug houses which are flooding the market with so many new drugs which the students are required to learn that they didn't have time to study anatomy and the things which doctors are supposed to study. No wonder the new doctors don't seem to know anything except how to give drugs, shots and whatever the pharmaceutical houses dish up to them.

The antibody theory collapsed with scientific tests and that leaves the vaccine business without a leg to stand on. (See Chapter on Germ Theory.)

#### VACCINE PROMOTERS TRY TO DODGE THE BLAME

Now that the vaccine racket is being exposed, the vaccine promoters are trying to squirm out of it by making confessions or trying to lay the blame on others. The day after the scare headlines came out in the papers — "Swine flu can cause death" — and "the flu vaccine is safe and will protect you. . .", etc., a top virologist for the CDC (Center for Disease Control) which heads the flu program — admitted that the CDC knew the headlines were false." (Enquirer Probe, 12/21/76).

"An official working with the CDC — Dr. Elmer Spurner, director of laboratories for the Missouri Division of Health, admitted, 'Our tests were not meant to confirm that there was a swine flu outbreak. I don't know how that got into newspaper stories.' "He knows.

He and the other promoters did not issue any denials when the headlines across the country read: "Swine Flu Case is Confirmed," and "Flu Vaccine Rushed to Missouri in Crisis." (Ibid)

After the many deaths, heart attacks, paralysis and other cases of vaccine poisoning began to mount, some of the promoters were asked to justify their widely advertised claims that the vaccine "would protect 85% to 90% of those vaccinated" . . . and that the side effects would be few and "inconsequential." One of the favorite tricks of the guilty was to lay the blame on others. As an example, Dr. John Seal of the National Institute of Allergy and Infectious Diseases said:

"The public should be much more careful in interpreting what we mean when we make such statements." (Ibid) What did he mean?

Another man on the advisory committee admitted:

We don't know what the vaccine will do when it faces the virus." Yet, they all told the people it was "tested and perfectly safe."

In other words, they don't know what they're doing, but they tell lies to lure people into their vaccination centers, and when the deaths and disasters occur, the doctors tell us in effect — "It's your fault for being stupid enough to believe us."

"Dr. Ernest C. Harrmann, associate professor of microbiology at Peoria, Ill., School of Medicine, believes that "*the time has come to ask for resignations of all those behind the swine flu vaccine rip off.*" (Enquirer Probe—12/21/76)

## A FEW CONGRESSMEN BLAST THE SWINE FLU HOAX

Not all of our Congressmen are hopeless. Some are actually on our side. Congressman Ron Paul of Texas is also a doctor and is able to see both sides of the swine flu question. Most doctors have tunnel vision and see only one side — the side with the dollar mark.

Congressman Paul, in an interview with the Enquirer (Dec. 21, 76) said: "I am outraged by this program. It has been a shocking misuse of funds ... and an evil political maneuver. There are people whose careers are in question because of this program. And I predict these blatant advertising efforts to panic the people into taking swine flu shots will fail.

"I think Congress has wasted more than one hundred million dollars. The swine flu program should be brought back to Congress and discontinued at once. The program should be stopped, and those who were responsible should be held morally accountable to the American public."

Congressman Larry McDonald of Georgia, also a medical doctor, said: "I think the swine flu program is a tailor-made *hoax* that finds its roots in frightening the American people . . . I believe that a full investigation of those in charge should be launched . . . and if it turns out to be a dishonest promotion, everyone responsible should be removed from their jobs."

It's heartening to find that *all* our Congressmen are not corrupt. But where were they, the good ones, when the vote was being taken to endorse and finance this mass poisoning program?

## HOW TO PUNISH THE CULPRITS

Removing the guilty from their jobs is not enough. A punishment should be imposed on them which they will feel, and that would be to take away all their money — that's their real love, obviously. If we gathered up all the bribes they have taken from their outside clients, plus all the other millions they have rounded up by using their governmental influence it, would amount to a billion dollars or more —perhaps. With this backlog of funds we could establish some good non-medical schools which would teach the people what to do to take care of their own ailments — even how to avoid all illness. That is possible because many are now living the health life and have no ailments whatsoever. These schools should be kept free from medical domination and political strings.

Health doctors with the right kind of non-medical training get at least 90% more successful "cures" than do the medical doctors with drugs. This project should be carefully supervised to make sure that a lot of pseudo schools do not spring up parading under the guise of the authentic, well trained schools of natural healing.

The present day medical doctors are 30 years behind the well trained health doctors. Medicine is on its way out. It is a failure method which leads the people astray.

## LAW SUITS AGAINST THE VACCINE PROMOTERS

When our President and Health Departments joined bands with our mortal enemies-- the poison pushers (vaccine promoters), and failed to warn the people against hazards of the oncoming poison raid, the people were left unprotected, with no use of the mass media (TV, radio, press etc.) and no help from City Councils, Mayors, Congressmen, County Supervisors, or police, because all our paid protectors had given their allegiance to the public poisoners. When the vaccine was causing death and disaster soon after the campaign was launched and the trusting unwarned, people were walking blindly into the vaccination centers, the few "do-gooders" who knew what was going on tried to reach as many as possible with WARNING leaflets and meetings. But that was not reaching enough people. It is a helpless feeling to see all our tax supported public officials working against the people and supporting a killer racket.

A few tried to go through legal channels with law suits against our derelict president and the heads of **thE** vaccine campaign. But that is a slow and expensive procedure, and besides, these hard working "do-gooders" were not making any money at their self appointed task of warning the people of the deadly hazards of the vaccines.

Three suits were filed from California. One suit which is progressing well was filed by Lewis E. Cook Jr. of San Diego, Calif. He charges that the inserts that appear in the vaccine packages produced by Merck, Sharp and Dohme, Wyeth, and Park Davis (firms making the swine flu vaccine) do not state the vaccine "might be in any way effective in Preventing influenza . . ." which is supposed to be its purpose and its only justification...

"The claims that influenza vaccine will or can prevent influenza cannot be made legitimately since there is no evidence anywhere in the world which would suggest that influenza vaccines have ever prevented even one case influenza.

"The data indicates that the entire mass immunization program is fraught with unknowns, suppositions, speculations, assumptions and little or practical and sound scientific validity---conceived and implemented in a most amateurish, haphazard and irresponsible manner, which poses a threat to the health -lives of the American public....

"Antibodies (supposedly) produced by the injection of the inactivated and disrupted whole virion and subvirion flu vaccines manufactured for swine flu cannot be shown to be effective in preventing swine flu ... The whole mass immunization program is fraught with dangers and risks without sound scientific data. The immediate, short, and long term adverse effects of the vaccines could not have been adequately determined during the brief period of only 3 or 4 months during which experiments on a few humans were conducted prior to publication" (of drug inserts).

It usually takes the drug companies several years to test vaccines before trying them out on people.

The third suit was filed by Ida Honorof representing People Against Political Innoculations, and of The National Health Federation. They joined forces to file suit in the U.S. District Court to stop the misuse of public funds for a vaccination campaign that has not been proven safe or effective. They assert that the mass inoculation program

violated the U.S. Constitution--First Amendment. They request that the whole program be discontinued "unless and until grave doubts and hazards associated this massive vaccine program are disclosed and fully known to the public." Honorof contends that the swine immunization program has been "a series of lies, deceptions -and errors of judgment. We're asking Ford, and Education and Welfare (HEW) that they terminate the program at once. The greatest danger is not flu but vaccine itself." (Published in VANGUARD, Sept. 76)

#### AMERICAN MEDICAL ASSOCIATION HAS BEEN OUTLAWED

The A.M.A. was found guilty in a U.S. Court of Law for violating the Anti-trust act a number of years ago. Dr. Morris Fishbine, President of the AMA, at that time, was sentenced to a prison term and the AMA was fined and admonished to cease and desist from their illegal activities. Fishbine didn't serve his prison term and the fine was not heavy enough to worry the association so they have continued to operate in violation to the law ever since then. Therefore, they are an "outlaw gang."

#### NEW ANTI-TRUST SUIT AGAINST A.M.A. FILED BY CHIROPRACTORS

On Oct. 12, 1976 an anti-trust suit was filed in Chicago, U.S. District Court, against the American Medical Association. This suit was filed by a group of Chiropractors who have proof that the AMA has, for years, boycotted, libeled, and tried to destroy and eliminate the whole chiropractic profession. Details in an article in SPEARS HOSPITAL NEWS, (Denver, Dec; 1976).

The AMA has not only carried on a continuous fight against Chiropractors, but all drugless fields of healing, most, if not all of which have safer and more successful methods of healing. Some of the drugless methods are not as good as others but, at least, they don't use poison drugs and knives, so they cannot do the harm that medical methods do.

The medical profession has no safe and sure cure for any disease. I know because I have worked with medical doctors. They hired me for what I knew that they didn't know. But, in spite of their lack of ability to cure anything, they used dictatorial powers to put out of business and into prisons many drugless doctors who could "cure" what they couldn't cure.

I know several highly successful health doctors who were practicing under Chiropractic licenses, but were sent to prison for "practicing medicine without a medical license." This was in a state where the medical dictatorship held sway, and they would not allow any other school of healing to practice there, although the drugless doctors achieved better results than they did.

Medical doctors call all other healers "quacks." A quack is one who claims to be able to cure diseases, and takes money for it, and does not "cure" the patients. Doesn't this description of "quack" fit practically all the medical doctors? They can't cure cancer; they

can't cure arthritis; they can't cure colds or anything, but they treat the patients and take their money.

The better drugless doctors have "cured" all these diseases without drugs.

When President Ford rolled up his sleeve and had a shot for advertising purposes, he was making it clear that the government endorsed the vaccine program and he wanted all the people to follow his example and be vaccinated. When a person tells others to take a certain medication he is prescribing medicine. Technically speaking, Ford was practicing medicine without a license. The AMA likes to put people in prison for practicing medicine without a license. The medical associations usually pick on their business rivals, the drugless doctors. Will they put Ford in Prison for committing the same crime they have convicted others for? Or, is there one law for those who oppose the harmful medical methods and another law for those who help promote medical crimes?

### 2,000,000 DOSES OF DEFECTIVE SWINE FLU VACCINE CONDEMNED

The haphazard and slipshod methods used by the vaccine makers has produced vaccines that have killed and paralyzed hundreds of people already, and no one seems to be supervising them. There are no safeguards, no tests and no proof of safety and effectiveness required of the vaccine makers except what they, the manufacturers, set for themselves.

The Los Angeles Herald Examiner (June, 3/76) published an AP report stating that the experimental "vaccine ready for testing on elderly and high risk cases was found to be defective. As a result, the program would be delayed 6 weeks. The Public Health Service said that 2,000,000 doses will be held in reserve for use if the correct vaccine is in short supply."

They admit it is a bad batch---too dangerous to use---and it is condemned, yet they didn't destroy it as they should have done. They intend to use it anyway--if they can get away with it---who would know the difference, (seems to be their attitude) as long as they can sell it and make money.

Who will know which of the unlucky people will get the bad vaccine? The vaccinators are not going to tell. Were all those 113 people who died a few hours after the shots given some of the condemned vaccine? Or was it approved vaccine? They're just as dead with one or the other, as *all vaccines are poison*---they are purposely designed to cause illness.

The bad batch was not discovered by government inspectors or by the lab technicians making the vaccine, but by another doctor not assigned to that task. We wonder who is supervising the supervisors. Is there another "outsider" sleuthing in all the laboratories which make the vaccine, looking for mistakes that pass as safe vaccine? We think not, as there have been too many casualties for that possibility.

Mistakes are also being made in other laboratories making different vaccines. This has been going on for years. Back in the days when the polio vaccine was being high-pressured on the public, the same Dr. Anthony Morris who is trying to warn us against the dangers of the swine flu vaccine, was doing the same then. He found that some of the polio vaccines were contaminated with SV 40, a virus known to cause cancer in monkeys and hamsters.

It's frightening to think that all this uncertainty, careless, unscientific guesswork with its deadly hazards passes for safe and scientific vaccination, approved by the government, the schools, the medical boards, the press and then passed on the people as something that they must not question or criticize.

The only way to be safe from these blood poisoning, money making vaccine campaigns is to refuse all shots. Prevention is better than cure; and much can be learned by reading good health books written by qualified health researchers. A few are listed in the bibliography. Don't be fooled by medical books with *health* titles. They have misled and mistaught the schools and the general public, for over a century. Medicine is not health. It is a health destroyer. "Preventive" medicine should actually "Prevent" medicines and drugs, and then it would be doing some good.

People are often fooled by, **SO** called "scientific findings" which are not scientific at all, but are manipulated by schemers, and then bought and paid for to be used as propaganda. The following is from an article in the Los Angeles times (11/26/76). The survey was run by Dr. Ian St. James-Roberts of London. (See page 42)

#### "MANY FAKE FINDINGS BY SCIENTISTS SEEN"

"Many scientists may be faking their findings, according to a report published Thursday in New Scientist magazine.

"The magazine asked scientists in a questionnaire whether they knew of cases of 'intentional bias'--- faking results to make experiments appear well conceived and important.

"90% of 200 replies reported knowledge of such cases.

"University scientists proved the worst offenders. Most cheaters were discovered by other scientists trying to duplicate the experiments. But those who replied said the gains from such frauds were often nothing, but in a few cases resulted in promotion.

"Some scientists implied that drug companies encouraged them to cheat by being obsessed with getting positive results, for one forensic scientist said it was not unusual for the police to indicate the sort of forensic (legal procedure) evidence they would prefer."

We wonder what pressures, bribes or other inducements were offered the, so called, scientists to say that the swine flu vaccine was properly tested and safe. Dr. Wecht said people should have been warned that the vaccine could trigger heart attacks, "but this

wasn't done."

Many people who saw through the fraud from the start tried to get warnings in the papers and on T.V. and other channels of communication, but the media turned a deaf ear.

#### SWINE FLU PROMOTERS TRIED TO CON THE SWINE RAISERS

In the planning stage, the vaccine promoters expected to round up a few cases of flu and stampede the whole world into the vaccination centers like they did for the 1918 flu epidemic. That would be a multi-billion dollar profit, like their lucrative polio vaccine drive. But the world didn't take the bait this time, and most of the Americans didn't either. So the promoters thought they would have a ready market with the swine raisers because they had named the vaccine "swine" flu vaccine. They tried to sell 80,000,000 doses of the vaccine to the swine raisers, but they saw through the fraud and turned it down without hesitation, not that hogs don't have ailments sometimes --they do when they are fed wrong and medicated. But the hog raisers had learned through bitter experience that shots, in previous years, had disastrous effects on their herds and they lost hogs and money from it.

If the hog farmers had enough common sense to refuse the poison shots for their hogs, why couldn't our high priced President and Congress use some of that common sense and do the same? Aren't our leaders as interested in Protecting us from the commercial poisons as the farmers are in protecting their pigs?

When the opportunists see a weak president on the "throne" they plan to "use him". When they staged massive polio vaccine drive in the 1950's they worked on the smiling, affable President Eisenhower and got \$9,000,000 to start with, then kept twisting his arm until they wrenched \$63,000,000 from him (the taxpayers) to support their killer vaccine campaign.

President Franklin Roosevelt was another "touch." He even let them use him and his infirmity to advertise and sell their polio vaccine.

The same drug houses and vaccine promoters got \$100,000,000 from Nixon.

After the polio vaccine drive was over the promoters bragged that they had raked in \$5 billion dollars over the several years they kept polio vaccine sales going.

#### PRESIDENT COOLIDGE UNSWAYED BY MEDICAL PRESSURE

We need strong, intelligent leaders. Where are they now when we need them? President Coolidge set a good example. When the Jones-Parker Bill and the Randall Bill (bills to set up a medical dictatorship within the government, raising the head potentate to the official status and salary of the Surgeon General of the Army) were rushed through Congress in 1928, and were brought before President Calvin Coolidge, he was unmoved by the high pressure medical lobbying. *He looked at the bills and stopped them with a Presidential veto.* He gave as his reason for this action:

"These bills give a military status to men supposed to be engaged in scientific research."

The plot of medical establishments to set up a medical dictatorship in U.S. goes way back to the Founding Fathers when they were framing the U.S. Constitution. There were quite a number of medical doctors in Congress at that time trying to high pressure a constitutional decree to set up a medical dictatorship. But the wise opposition won. Dr. Benjamin Rush and Dr. Josiah Bartlett were the opposing forces. They convinced Congress that one branch of healing in control would be as bad as one religious sect dominating all the others. That's exactly what we were fighting against.

George Washington was also a strong President. Even that long ago in 1775 he knew more than our present day doctors do about the harmful effects of vaccination. He issued an order that no man in the Continental Army was to be inoculated. Any enlisted man or officer who submitted to that blood contaminating practice would be dishonorably discharged. He had seen the devastation of smallpox caused by the practice of arm-to-arm inoculation which was introduced from Europe. Edward Jenner and his cow pox abomination did not begin until 1791--16 years later. Both methods caused widespread disease, disability and death until compulsory vaccination was abolished all over the world except in about three backward countries and the U.S. armed services. These are the places which still have outbreaks of the same diseases they vaccinate against. And the diseases are in the vaccinated.

George Washington had enough problems without a lot of vaccine induced disease. Vaccination and inoculation was practiced by the unenlightened as far back as 1,500 years B.C. (See the chapter on HISTORY OF VACCINATION).

What is wrong with our leaders of today. Are their heads turned by bribes or can't they tell the difference between false propoganda and facts. They are being paid by us to do some home work and investigate before putting our lives and our money on the line.

The following poem sounds a clarion call:

#### GOD GIVE US MEN

"God give us men! A time like this demands Strong minds, great hearts, true faith and ready hands  
Men whom the lust of office does not kill;  
Men whom the spoils of office cannot buy;  
Men who possess opinions and a will;  
Men who have honor; men who will not lie;  
Men who can stand before a demagogue and damn his treacherous flatteries without winking.  
Tall men, sun-crowned, who live above the fog  
In public duty and in private thinking;  
For while the rabble, with their thumb-worn creeds  
Their loud professions and their little deeds,  
Mingle in selfish strife, Lo, Freedom weeps,  
Wrong rules the world, and waiting Justice sleeps.—Josiah Gilbert Holland

WHAT OUR LEADERS SHOULD HAVE CHECKED ON BEFORE THROWING US TO  
THE KILLER (VACCINE) SHARKS

(1) First of all, Ford, Congress and the other leaders paid to look after our interests and safety, should have required a guarantee that the vaccine was safe--not deadly. The propaganda of the sales crew said it was safe, but they gave no proof and no guarantee. The sales crew are not authorities; so Ford should have demanded a money back guarantee from the pharmaceutical houses making the vaccine. There should have been written proof of safety and effectiveness before the \$135,000,000 was paid. But, the drug houses could not give any proof of safety because they knew it was not safe. Their lab. tests and field tests proved it killed test animals and people. This was not made public.

A number of years ago when the diphtheria toxin-anti-toxin was being promoted, some suspicious people went to the laboratory making the vaccine, and asked for a written guarantee. The lab. refused to give any statement of safety, and admitted that "all vaccines are unstable and unpredictable in their effects, and could never be declared safe."

If Ford and the rest of the government had taken care of that necessary bit of business (making a careful check) before transacting the questionable \$135,000,000 deal, then the flu vaccine would have been rejected and the taxpayers would not have been swindled out of the \$135 million. Besides that, all those people who were killed by the vaccine would still be alive and happy today.

(2) The promoters said that the vaccine would prevent flu. It didn't; it caused it.

(3) They said the flu was contagious and the vaccine would protect people. Flu is not contagious. It is caused by the blood poisoning effects of the vaccine itself as well as other kinds of body contamination. Viruses and germs cannot cause disease. (See the chapter on WHY GERMS CANNOT CAUSE DISEASE.)

(4) The vaccine promoters said the blood samples from the man who died at Fort Dix showed viruses like the blood samples from the 1918 flu epidemic and that it could trigger a widespread, deadly epidemic like the previous one.

This is not true because there are no virus-bearing blood samples from the 1918 flu epidemic. That epidemic was 58 years ago and viruses were unknown then. The first swine virus was discovered by a U.S. man in 1931. A British science team isolated the first virus in man in 1933. But, viruses have never been proved to be the cause of disease anyway, although the vaccine makers try to use them as a scare tactic, knowing that they are so small that people can't see them or prove one way or another if they have any. One dictionary definition of virus is "a morbid poison." A poison is an inert substance. It cannot move about and attack people.

If any blood samples from the 1918 flu epidemic are still on record they would be so dried up and changed in structure that they couldn't prove anything. Certainly no germs or viruses would be seen.

I have examined fresh blood samples under the microscope in college and saw how rapidly the blood changed in color and structure as it dried on the plate in just a few seconds. A sample 58 years old is a poor excuse for the vaccine promoters to try to rely

upon for proof.

Viruses would not have even been mentioned in the medical or lab. reports for the 1918 period because they were unheard of. And besides, they couldn't be seen with the kind of microscopes they had then.

The flu of 1918 was caused by the conglomeration of diseases which the sinister variety of vaccines brought on. Practically everyone in the world had been propagandized into submitting to all the vaccine that were invented---the surplus stock left over from World War I which was the first war in which all the vaccines were used. The vaccinated got the flu and the unvaccinated didn't. I was one of the unvaccinated and I didn't get the flu. I didn't see an unvaccinated person who got the flu.

#### QUESTIONS THAT SHOULD HAVE BEEN ANSWERED BEFORE CONSIDERING ANY VACCINATION DRIVE

Ida Honorof, head of PEOPLE AGAINST POLITICAL VACCINATION, tried to get the Los Angeles Board of Supervisors and certain other officials to put pressure on David Mathews of Health, Education and Welfare, and other promoters of the vaccine to answer some important questions before they embarked on the questionable vaccination drive. Mathews was in L.A. to give a talk and his mind was already made up to promote the vaccine. Honorof, confronted him and presented him with the list of questions, but he didn't answer them and the Supervisors didn't request him to.

The questions are as follows:

(1) Can you define any benefits derived from the swine flu vaccine? According to the law the benefits must outweigh the risks. (They don't.)

(2) Will the swine flu vaccine prevent swine flu? (It never has.)

(3) Is it true that if one gets the "shot" will he get an even more severe case of flu? (Yes, and death 113 cases.)

(4) Why were Dr. Morris' test animals in 4 laboratories destroyed? His test results would have shown the efficacy or hazards of the vaccine.

(5) Did Health, Education and Welfare submit any testimony before the sub-committee on Health and Environment.....at their scheduled hearings, relating to possible hazards of the swine flu vaccinations, names of persons submitting opposing evidence and how many witnesses were heard that opposed the program?

(6) Is there any evidence that a high percentage of those who have the shots will receive no benefits?

(7) Claim is made that 70% of the people who get vaccinated would be protected. Among the unvaccinated 75% would be protected. Explain these contradictions.

(8) Can you give any evidence that a swine flu epidemic exists? (None)

(9) It takes approximately 10 years of testing and research to approve any substance, drug or biological which is to be administered into the human body. If the same standard applies to vaccines why has not the swine flu vaccine been subject to the same tests which the FDA says are necessary before injection into human beings?

(10) Even though the Pharmaceutical insert accompanying the flu vaccine cautions against "*injecting intravenously*," isn't it true that there *is no control with the jet injector*, which explodes the vaccine into the skin with 1,300 pounds pressure--- into tissue space, tissue cells, directly into the arteries, veins, lymph vessels (and right to the heart) thereby producing great destruction, and eventually ending up in the blood stream?

(11) Each of the vaccine manufacturers making the swine flu vaccine (Park-Davis, Merrell, Wyeth, Merck) use a mercury derivative as a preservative. The danger of (the highly poisonous) mercury injected into the body---or inhaled or ingested, etc. is well documented.

(12) Why is the printed form which is presented to persons to sign before getting their shots, read "registration," when Public Law 94-390 specifically stipulates that it be a "consent" form. This was strenuously objected to by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, and they asked that said forms be destroyed and not used, since they are definitely not "consent" forms, and are gross violation of the act.

(13) What is the detailed definition and description of swine flu?

(14) Is there really a disease called "swine flu"?

(15) Why wouldn't vaccine manufacturers produce and distribute the vaccine without indemnification from all the liability for vaccine-caused sickness, disabilities and deaths?

(16) Why did the insurance companies refuse to provide such insurance?

(17) Why were the people and public tax money, made responsible for all liabilities and claims resulting from the sickness, disabilities and deaths caused by the swine vaccine?

(18) Who benefits from the mass vaccination of 215 million Americans?

(19) Is it really necessary or advisable for everyone to get a swine flu vaccination? (No)

So far, the flu promoters have not answered the questions.

#### DEATH COUNT MAY NEVER BE KNOWN

Up to January 7, 1977 the death count from swine flu vaccine was 113 (people) and paralysis was 139. We have reason to believe that this is only a fraction of the actual casualties. During the polio vaccine drive in the early 1950's when the shots caused so many deaths and cases of paralysis, Dr. Dale, of the Los Angeles Epidemiology

Department, said that for every case that was reported there were an estimated 15 unreported cases. Many vaccine deaths were recorded as from other causes, to conceal the hazards of the vaccine.

During my 30 years of research and writing I have uncovered facts that prove the medical records and death certificates are sometimes deliberately falsified and changed to cover up guilt of doctors and lab. technicians. (See the chapter on FALSIFIED DEATH CERTIFICATES AND MEDICAL RECORDS.) -

All vaccines are poison, and therefore, cause death and disease. This is a known fact, and every vaccination campaign has brought on a large number of disasters. Those of us who knew this, tried to warn the people and ward off the vaccine drive. But the din of the well financed vaccine juggernaut drowned out our cry, and the high pressure advertising scare campaign panicked millions into the vaccination centers. We knew death and disease were inevitable — but none were announced in the papers at first. Therefore, Ida Honorof (head of Citizens Against Political Vaccinations) decided to do what the health officials should have done; she went to the L.A. County coroner and made a check on the deaths. She found that five people there had died within 48 hours after their flu shots. Some were young and didn't have other ailments that could be blamed for their deaths. The vaccine promoters including the health departments had intended to cover up the vaccine deaths and disasters. But Honorof brought it out in the open. She contacted the National Health Federation (a non medical group which tries to protect the people from health hazards from medical, commercial and political sources. They called a public meeting in Glendale, Calif. where they aired some startling facts about the vaccination campaign and the mounting disasters caused by the poison vaccine. Some of the relatives of the flu victims were there and gave account of the state of health of those who were killed by the vaccine.

After this expose' the papers had to announce some of the deaths as it was no longer possible to conceal them. The coroner and doctors tried to gloss over it by saying that the deaths were all from heart trouble and they would have died anyway without the shots. Naturally, the heart stops when a person dies from any cause, so heart failure is an "easy out" for the coroner.

For a few days, deaths were announced in the papers until the count rose to 52. Then suddenly the death reports stopped. People got suspicious because the vaccinations were continuing and we knew that all vaccines are poison and that means that people do die from the shots.

Honorof did a little more detective work and learned that Dr. Shirley Fannin, Chief of Acute Disease Control Center of L.A. had met with the vaccine promoters and medical boards to decide what they could do to keep the people from finding out how many were being killed by the vaccine. They decided among themselves not to count as vaccine casualties those who didn't die suddenly within 48 hours after getting the shots.

This was a shocker. The idea that these poison promoters who were killing the people with wild abandon, had set themselves up to be so high and mighty that they could lay down the law as to what hour people could die, and if they happened to die 49 hours after the shots they would not be dead from their poison vaccine. Dr. Fannis then wrote a letter to the Coroner ordering him to not announce the deaths as vaccine casualties unless they died within her 48 hour time span. This gives us an idea of the tricky business they have been carrying on all through the years, and we didn't suspect a thing.

The 48 hour "cut off time" of theirs, cuts out those thousands who died a little later. It also cuts out Private David Lewis, the man who died at Fort Dix, New Jersey of what the doctors diagnosed as swine flu. *He died more than six weeks* after his vaccinations at camp. He was the one and only case of swine flu the doctors have found in the whole world. He was all they had to hang their whole nation-wide swine flu scare on. And now, their own medical decree that it isn't swine flu unless he dies within 48 hours, knocks out their one and only case. Actually, the official diagnosis by military doctors was that Pvt. Lewis died of A-Victoria flu (vaccine), not swine flu.

Now, without one authentic case of swine flu and without any epidemic except the epidemic of vaccine poisoning, the vaccine promoters and all the doctors who participated in giving or endorsing the shots, as well as the political heads who financed it, *are all guilty of hundreds of vaccine deaths--murders*. What are we going to do about it? Are there enough honest and concerned officials to prosecute them and make them pay all the damages and then put them out of circulation?

#### WHO POCKETS THE MONEY?

The arrangement was that the \$135,000,000 of the people's money was for vaccine doses for all the 215 million people in this country, at 50c a shot. So many people were killed and paralyzed by the vaccine that the campaign had to be stopped before a riot broke out to kill all the doctors and vaccine promoters--and a few others. So only a few in the country were vaccinated. Even if we stretch a point and estimate that there were 50,000,000 who had shots, that would be only 25,000,000 dollars used out of the \$35,000,000. That leaves \$110,000,000 of our money which they, the promoters, still have. Do those doctors and various other crooks intend to pocket the \$110 million? It should be returned immediately to the treasury and the vaccine promoters billed for the rest of the \$25,000,000 which they took under false pretenses, because there was no epidemic and the vaccine was not safe and all their promises and claims were false.

#### COMPULSORY ARMY VACCINATIONS ARE UNCONSTITUTIONAL

Private David Lewis who died at Fort Dix, supposedly of swine flu, would be alive today if the Army had not violated the law by forcing the poison shots on the soldiers. Our U.S. Constitution gives us the "*right* to be secure in our persons." Therefore, all enforced vaccination (mass medication) is a violation of our legal rights.

According to Blackstone (the "Bible" of the lawyers): "No laws are binding upon the human subject which assault the body or violate the Conscience."

The U.S. Supreme Court ruled that:

"No right is held more sacred or is more carefully guarded by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others ....

Judge Cooley stated: "The right of one's person may be said to be a right of complete immunity; to be let alone."

In the official code book of the U.S. Armed Services titled, UNION CODE OF MILITARY JUSTICE, we find that there is *no compulsory vaccination law* in any of the branches of our military services. Therefore, as there is compulsory vaccination law in United States or the military establishment, the enforced vaccinations on our recruits is against their legal rights. Because vaccines are proved to be poisonous and harmful in all cases, the military forces are *guilty of malpractice* and subject to the laws governing that offense.

One woman I talked to has already sued the Army for \$1,000,000 for causing the death of her son as a result of shots at camp. In England, so many outraged parents sued the government for vaccine damages to their sons in the military services, that the government abolished compulsory vaccination in both the military and civilian life. (See the chapter on WHAT VACCINATIONS DID TO OUR SOLDIERS.)

#### HOW WILL OUR NEW PRESIDENT CARTER HANDLE THE SWINE FLU SWINDLE?

Last Spring (1976) the epidemic makers were in a frantic rush to get President Ford to give them the full payment of \$135,000,000 immediately, with no questions asked, no guarantee of safety and with no swine flu epidemic pending, not a case in the world, and they didn't even have any effective vaccine.

Why the big rush we wondered. The only obvious answer was that the November Presidential election might remove their "pigeon." They knew Ford was easy to manipulate and they wanted to "use him" while they had him on a string. A new president might take a second look and refuse to support their private money making racket.

Now, the election is over and our new President Carter is left with the ragged ends to clean up, left from Ford's term. We are wondering how he will handle "Ford's Folly" and if he will investigate the vaccine scandal and require the guilty ones to repair their damages and return our money they took under false pretenses.

We are hoping that President Carter will not be swayed and dominated by the powerful medical and drug lobby. But one blotch on his past record makes us wonder. We heard that he let himself be controlled by the *fluoride promoters* and paid them to poison the entire state water system of Georgia. If he is a man for the people why didn't he investigate the other side, not just the false sales propaganda? Chemists report that "fluoride compounds rank along with cyanide and arsenic in toxicity." Sodium fluoride or hydrofluosilicic acid is the form which is used to poison the public water supplies. Most water supplies already contain calcium fluoride which is also poisonous, but sodium

fluoride is 15 times more poisonous than calcium fluoride. A few states such as Texas are working to filter out all the fluoride even the calcium fluoride because they have found by tests that all fluoride is too dangerous for them.

Sodium fluoride is a cheap by-product of the aluminum and fertilizer companies. About the only thing it is good for is rat poison. But their promotion man conceived the idea of selling it to the politicians to dump in the public water supplies. Enough City Council members were "on the take" or weak minded enough to buy the sales propaganda and consequently quite a number of cities and a few states were fluoridated. However, hundreds of them have abandoned the program when it was found, after years of use, that the fluoride was not only expensive, it was damaging to the health and to the water pipes and all equipment that came in contact with the poisoned water.

Their main selling point is that it (fluoride) prevents cavities in children. This is false. Fluorides deteriorate the bony structure of the entire body and make the tooth enamel brittle, thus causing more dental trouble in later years.

#### FLUORIDATED TOOTH PASTE DANGEROUS

TV commercials saying that fluoridated tooth paste has 20 tests proving that said tooth paste prevents cavities, should be investigated. Some dental associations have been "procured" by the fluoride promoters, and they try to get all the dentists under their influence to endorse fluoridation. But those who dare to tell the truth say fluoride is damaging to the teeth and the general health. The membrane of the mouth is very porous and the poison fluoride in the tooth paste enters the blood almost immediately and causes kidney disease and all kinds of diseases of body poisoning. (See the chapter on FLUORIDATION.)

#### MEDICINE — ON THE WAY OUT

The study of medicine has never been a science. It creates far more illness than healing. Recovery occurs in spite of the drug treatment because of the internal healing forces within all living organisms which struggle to survive.

Books on the newer knowledge of "nature cure", teaching the underlying fundamentals of health and healing will soon be available to the general public and they will read them and be able to follow the rules and avoid disease. Those who are already ill will be able to "cure" their ailments better than the established medical methods. This will make medicine obsolete — out of date and unpopular.

In closing this chapter I should like to state that all medical men are not guilty of the crimes exposed in this booklet. A few doctors are sincere in their efforts to help their patients. Their weakness is that they are badly trained and dominated by an organization which leads them away from their avowed purpose. There is hope for those who want to learn better ways and help the sick get well. If they don't try to catch up with the modern "health doctors" and "natural methods" of healing, their patients will outstrip them in knowledge and ability and leave them trailing in the dust.

## A BETTER CAMPAIGN

The swine flu vaccine campaign was such an obvious fraud, with no epidemic, not even one authentic case of swine flu anywhere in the world, it makes us wonder about the sanity of the promoters. If they really wanted to combat a growing health disaster why don't they work against something that is killing millions, such as SMOKING? Tobacco and its smoke contains over 30 poisons, three of which are cancer causing. Over 300,000 people in the United States alone, die from the effects of poisons in tobacco. The great number of cases of tobacco heart, lung cancer, Burgher's disease (gangrene of the feet caused by smoking), and many other diseases of tobacco poisoning, make smoking the number one killer of today. Smoking kills more in one year than were killed in all our wars from the American Revolution on down to the late Vietnam war, and hardly anyone is trying to stop it. Our government subsidizes the killer tobacco industry because it brings in around \$8 billion in revenue. But the damages and disasters caused by smoking (fires, death, disease, etc.) cost this country over \$24,000,000,000 (billion) every year.

Ford and our government gave \$135 million to support a fake swine flu epidemic which killed and paralyzed hundreds (maybe thousands if we had the "undoctored" records), so why not bring that money back from the medical swindlers and put it into a campaign to get rid of the real killer of men, women and even children. Many children die of tobacco heart because they have to breathe the poison fumes from their smoking parents; also, they learn to smoke early because they see it all the time and think it is all right because their parents smoke. (Read my book, ANSWERS FOR THE WORRIED SMOKER, which tells how to quit without the "cold turkey" method, which is harmful and not too effective. Write to E. McBean, Box 55278 — L.A., Calif. \$5.00, postage and tax paid. Deluxe edition.)

Some people are wondering if Chicago 's famous Mayor Daily also got a wrong dose of the flu and suddenly died, the same as hundreds of others within hours after their flu shots.

If anyone knows for sure if Mayor Daily had a swine flu shot, please write and give me the such as time, place, who gave the shot, etc.

Thank you, E .McBean

## **THE SPANISH INFLUENZA EPIDEMIC OF 1918 WAS CAUSED BY VACCINATIONS**

Chapter 2 from the book Swine Flu Expose by Eleanora I. McBean, Ph.D., N.D., Published in 1977

As has been stated before, all medical and non-medical authorities on vaccination agree that vaccines are designed to cause a mild case of the diseases they are supposed to prevent. But they also know and admit that there is no way whatsoever to predict whether

the case will be mild or severe - even deadly. With this much uncertainty in dealing with the very lives of people, it is very unscientific and extremely dangerous to use such a questionable procedure as vaccination.

Many vaccines also cause other diseases besides the one for which they are given. For instance, smallpox vaccine often causes syphilis, paralysis, leprosy, and cancer. (See the chapters on smallpox and plagues.) Polio shots, diphtheria toxin-antitoxin, typhoid vaccine, as well as measles, tetanus and all other shots often cause various other stages of disease such as post-vaccinal encephalitis (inflammation of the brain,) paralysis, spinal meningitis, blindness, cancer (sometimes within two years,) tuberculosis, (two to twenty years after the shot,) arthritis, kidney disease, heart disease (heart failure sometimes within minutes after the shot and sometimes several hours later.) Nerve damage and many other serious conditions also follow the injections.

When several shots are given (different vaccines) within a few days or a few weeks apart, they often trigger intensified cases of all the diseases at once, because the body cannot handle such a large amount of deadly poison being injected directly into the bloodstream. The doctors call it a new disease and proceed to suppress the symptoms.

When poison is taken by the mouth, the internal defense system has a chance to quickly eject some of it by vomiting, but when the poisons are shot directly into the body, bypassing all the natural safeguards, these dangerous poisons circulate immediately throughout the entire body in a matter of seconds and keep on circulating until all the cells are poisoned.

I heard that *seven men dropped dead in a doctor's office after being vaccinated*. This was in an army camp, so I wrote to the Government for verification. They sent me the report of U.S. Secretary of War, Henry L. Stimson. The report not only verified the report of the seven who dropped dead from the vaccines, but it stated that there had been 63 deaths and 28,585 cases of hepatitis as a direct result of the yellow fever vaccine during only 6 months of the war. That was only one of the 14 to 25 shots given the soldiers. We can imagine the damage that all these shots did to the men. (See the chapter on What Vaccinations Did to Our Soldiers.)

**The first World War was of a short duration, so the vaccine makers were unable to use up all their vaccines. As they were (and still are) in business for profit, they decided to sell it to the rest of the population. So they drummed up the largest vaccination campaign in U.S. history. There were no epidemics to justify it so they used other tricks. Their propaganda claimed the soldiers were coming home from foreign countries with all kinds of diseases and that everyone must have all the shots on the market.**

The people believed them because, first of all, they wanted to believe their doctors, and second, the returning soldiers certainly had been sick. They didn't know it was from doctor-made vaccine diseases, as the army doctors don't tell them things like that. Many

of the returned soldiers were disabled for life by these drug-induced diseases. Many were insane from postvaccinal encephalitis, but the doctors called it *shell shock*, even though many had never left American soil.

The conglomerate disease brought on by the many poison vaccines baffled the doctors, as they never had a vaccination spree before which used so many different vaccines. The new disease they had created had symptoms of all the diseases they had injected into the man. There was the high fever, extreme weakness, abdominal rash and intestinal disturbance characteristic of typhoid. The diphtheria vaccine caused lung congestion, chills and fever, swollen, sore throat clogged with the false membrane, and the choking suffocation because of difficulty in breathing followed by gasping and death, after which the body turned black from stagnant blood that had been deprived of oxygen in the suffocation stages. In early days they called it Black Death. The other vaccines cause their own reactions — paralysis, brain damage, lockjaw, etc.

When doctors had tried to suppress the symptoms of the typhoid with a stronger vaccine, it caused a worse form of typhoid which they named *paratyphoid*. But when they concocted a stronger and more dangerous vaccine to suppress that one, they created an even worse disease which they didn't have a name for. What should they call it? They didn't want to tell the people what it really was — their own Frankenstein monster which they had created with their vaccines and suppressive medicines. They wanted to direct the blame away from themselves, so they called it *Spanish Influenza*. It was certainly not of Spanish origin, and the Spanish people resented the implication that the world-wide scourge of that day should be blamed on them. But the name stuck and American medical doctors and vaccine makers were not suspected of the crime of this widespread devastation — the *1918 Flu Epidemic*. It is only in recent years that researchers have been digging up the facts and laying the blame where it belongs.

Some of the soldiers may have been in Spain before coming home, but their diseases originated in their own home-based U.S. Army Camps. Our medical men still use that same dodge. When their own vaccines (required for travel) cause vaccine diseases abroad they use this as grounds for a scare campaign to stampede people into the vaccination centers. Do you remember the Hong Kong Flu and the Asian Flu and the London Flu scares? These were all medically-made epidemics mixed with the usual common colds which people have every year.

Now (1976) we are being worked on again by the vaccine -epidemic makers in their effort to force another multi million dollar vaccine sale caper. Their con men have already talked President Ford into handing over \$135 million dollars to start their vaccine racket. Even the insurance companies refused to become involved with such an obviously dangerous and crooked scheme. So, again the medical and drug con men induced the appropriate government officials to guarantee insurance against the, possible billions of dollars in law suits which could be brought against the vaccine promoters if the vaccine campaign is carried out as planned. It's a good thing Ford was voted out of office. It's too bad he wasn't "dumped" before he paid the *poison squad the MONEY* to poison the whole population. However, we don't yet know if President Carter will be any better. Will he be held in the

grip of the medical and drug dictatorship? Or will he investigate — learn the truth — reverse the decisions and make the vaccine makers return the money taken from the taxpayers under false pretenses?

The statement of the swine flu vaccine promoters to the effect that the vaccine is harmless, is false, and the statement that it will protect against flu is false. Fifty-six people died after the shots, some within 48 hours. There is confusion and disagreement among the doctors about all aspects of the vaccine, from the safety and effectiveness to the necessity for it, who should have it and who should be warned against it.

Their scare-head campaign cry is that the swine flu is like the 1918 flu which killed 20,000,000 people. They don't have any usable and provable blood samples from the 1918 flu epidemic to prove it. That was 58 years ago, and the doctors were just as confused and inefficient then as now. **However, one thing is certain — the 1918 Spanish Influenza was a vaccine-induced disease caused by extreme body poisoning from the conglomeration of many different vaccines. The soldiers at Fort Dix who were said to have had Swine Flu had been injected with a large variety of vaccines like the vaccines which caused the 1918 flu epidemic. The flu epidemic at Fort Dix was in no way related to swine.** There were no swine at camp (unless we want to sarcastically call the vaccine promoters who caused the diseases - "swine.")

To add to the confusion, the doctors tell the people that there are a lot of various kinds of flu; the one which the soldiers at Fort Dix had was A Victoria flu, there are other strains of flu virus, and also, that the swine flu vaccine which so many people have taken already will not protect them against the many other types of flu. **This will be used as an "out" in case of law suits later on when more casualties begin to show up. The doctors will say that the vaccine failed because it was the wrong kind of flu for the vaccine.** Of course, no one can prove it one way or the other because viruses are illusive, invisible organisms which are unstable and unpredictable. One dictionary definition of virus is "a morbid poison." The vaccines injected into the body are poison and cause the typical poison reactions. Virus (poison) does not fly around and attack people.

**Therefore, there will be no swine flu epidemic unless the vaccine promoters make one like they did in the 1918 flu epidemic. It will not kill 20,000,000 people unless the people submit to the disease-producing shots.** There are also, **other causes of disease besides vaccines, such as bad food, which has been devitalized and contaminated with poison preservatives and artificial drug concoctions.** There are many more causes of disease but no diseases are contagious(See the chapter on the germ theory).

**Vaccine drives come and go as often as the vaccine promoters can cook up the slightest pretense of a reason.** Back in 1957 they were trying to stir up a vaccination campaign for what they decided to call Asiatic flu. An editorial in the Herald

and Express for August 29, 1957 was captioned, "**Fear of Flu Propaganda.**" Part of the piece is as follows:

"What a tempest in a teapot has been blown up over the probability that this country will experience an epidemic of the Asiatic flu in the fall and winter months ahead.

"Even the United States Department of Health is stooge for the panic — and has issued statements which are frightening the public, rather than reassuring them by pointing out that this epidemic, while widespread, gives no indication of being any more dangerous than our usual flood of influenza-like colds when winter comes on.

**"Those who read between the lines even wonder whether the whole thing might not be a bit of super salesmanship on the part of those who are making and selling the vaccines which are being prepared.. . ."**

### **I WAS AN ON-THE-SPOT OBSERVER OF THE 1918 INFLUENZA EPIDEMIC**

All the doctors and people who were living at the time of the 1918 Spanish Influenza epidemic say it was the most terrible disease the world has ever had. Strong men, hale and hearty, one day would be dead the next. The disease had the characteristics of the black death added to typhoid, diphtheria, pneumonia, smallpox, paralysis and all the diseases the people had been vaccinated with immediately following World War 1. Practically the entire population had been injected "seeded" with a dozen or more diseases — or toxic serums. When all those doctor-made diseases started breaking out all at once it was tragic.

That pandemic dragged on for two years, kept alive with the addition of more poison drugs administered by the doctors who tried to suppress the symptoms. As far as I could find out, the flu hit only the vaccinated. Those who had refused the shots escaped the flu. My family had refused all the vaccinations so we remained well all the time. We knew from the health teachings of Graham, Trail, Tilden and others, that people cannot contaminate the body with poisons without causing disease.

When the flu was at its peak, all the stores were closed as well as the schools, businesses — even the hospital, as the doctors and nurses had been vaccinated too and were down with the flu. No one was on the streets. It was like a ghost town. We seemed to be the only family which didn't get the flu; so my parents went from house to house doing what they could to look after the sick, as it was impossible to get a doctor then. If it were possible for germs, bacteria, virus, or bacilli to cause disease, they had plenty of opportunity to attack my parents when they were spending many hours a day in the sick rooms. But they didn't get the flu and they didn't bring any germs home to attack us children and cause anything. None of our family had the flu — not even a sniffle— and it was in the winter with deep snow on the ground.

When I see people cringe when someone near them sneezes or coughs, I wonder how long it will take them to find out that they can't catch it — whatever it is. The only way they can get a disease is to develop it themselves by wrong eating, drinking, smoking or doing some

other things which cause internal poisoning and lowered vitality. All diseases are preventable and most of them are cureable with the right methods, not known to medical doctors, and not all drugless doctors know them either.

It has been said that the 1918 flu epidemic killed 20,000,000 people throughout the world. But, actually, the doctors killed them with their crude and deadly treatments and drugs. This is a harsh accusation but it is nevertheless true, judging by the success of the drugless doctors in comparison with that of the medical doctors.

**While the medical men and medical hospitals were losing 33% of their flu cases, the non-medical hospitals such as BATTLE CREEK, KELLOGG and MACFADDEN'S HEALTH-RESTORIUM were getting almost 100% healings with their water cure, baths, enemas, etc., fasting and certain other simple healing methods, followed by carefully worked out diets of natural foods.** One health doctor didn't lose a patient in eight years. The very successful health treatment of one of those drugless doctors who didn't lose any patients will be given in the other part of this book, titled VACCINATION CONDEMNED, to be published a little later.

If the medical doctors had been as advanced as the drugless doctors, there would not have been those 20 million deaths from the medical flu treatment.

There was seven times more disease among the vaccinated soldiers than among the unvaccinated civilians, and the diseases were those they had been vaccinated against. One soldier who had returned from overseas in 1912 told me that the army hospitals were filled with cases of *infantile* paralysis and he wondered why grown men should have an infant disease. Now, we know that paralysis is a common after-effect of vaccine poisoning. Those at home didn't get the paralysis until after the world-wide vaccination campaign in 1918.

## CHAPTER 4

### MEDICALLY-MADE EPIDEMICS---COURT CASES

Drug sales are big business, whether it is marijuana, heroin, tobacco, vaccines, or the misnamed "miracle" drugs, antibiotics, etc. They all cause cell destruction and eventual death — delayed reaction in most cases — although some deaths are sudden, as in penicillin and vaccines which often cause death within 20 minutes.

Vaccine campaigns have been carried on periodically for many years, and it is one of the most lucrative of drug sales, and not illegal such as for heroin and marijuana. The sales propaganda is so deceptive that most of the people believe it, and the medical and drug businesses have enough control over the news media to conceal or distort the reports of deaths and disasters from vaccines to keep the people in the dark as to the hazards of their popularized poisons. The Better Business Bureau is better for business but not for the people. That agency is instructed (by the medical and drug concerns) to forbid the newspapers from selling any advertising space to writers of anti-medical books and

articles. I wouldn't make this statement unless I had proof and legal papers to back it. (This is discussed in more detail in another chapter.) It is a form of medical dictatorship — and that is against the law.

Most of the medically-made epidemics get by without being exposed and prosecuted, but a few occurred in cities which had some alert and concerned health groups which took the vaccine promoters to court and got convictions. Two of these court cases are briefly outlined below:

#### COURT CASES OF SMALLPOX EPIDEMICS DECLARED WHEN THERE WAS NO SMALLPOX

(Report from THE ADVERTISER'S PROTECTIVE BUREAU of Kansas City)

"In the fall of 1921 the health of the city was unusually good, but dull for the doctors. So the **Jackson Medical Society met and resolved to make an epidemic in the city.**

According to the record:

"MOTION WAS MADE AND SECONDED THAT A RECOMMENDATION BE MADE BY THE COMMITTEE TO THE BOARD OF HEALTH THAT AN EPIDEMIC OF SMALLPOX BE DECLARED TO EXIST IN THE CITY AT THE PRESENT TIME.

"MOVED AND SECONDED THAT A DAY BE SET ASIDE TO BE TERMED *VACCINATION DAY*, ON WHICH PHYSICIANS WILL BE STATIONED AT ALL SCHOOLS, CLINICS, PUBLIC BUILDINGS AND HOSPITALS ... TO VACCINATE, FREE OF CHARGE. (No shots are free. The taxpayers are charged for them.)

"It is further recommended that wide publicity be given, stating that vaccination is a preventative of smallpox and **urging the absolute necessity of vaccination for every man, woman and child in the city.**

Those who investigated this fake, doctor-made epidemic searched for cases of smallpox to justify this vaccination drive, but could not find one case in the city.

The scare-head vaccination propaganda showed a picture of a child covered with sores (probably from empetigo, psoriasis or congenital syphilis), and called it smallpox. People are easily frightened when public officials tell them a disease is contagious and is in their midst. The fear vanishes when people learn the truth. Smallpox is not contagious, and compulsory vaccination is illegal. (See the chapter on smallpox for information on tests which proved smallpox and other diseases are not contagious, and can be avoided with the right knowledge and application of that knowledge, given in the big book, "VACCINATION CONDEMNED BY COMPETENT DOCTORS."

Most people do not question the decision of their doctors and public officials so they trustingly put their lives and the lives of their children into the hands of the unprincipled drug vendors. The results were disastrous for the people but good for the doctors. The

hospitals were soon filled with vaccine poisoned people and the doctors had business all winter.

According to the record, the doctors made \$500,000 from that Kansas City vaccination spree, not counting the millions of dollars from the hospital cases.

#### ANOTHER MEDICALLY-MADE EPIDEMIC IN PITTSBURGH IN 1924

The same procedure was carried out as for Kansas. The doctors called a meeting and moved and seconded that an epidemic be declared in the city. As usual, they spread their scare propaganda far-and-wide and herded the people into the vaccination centers.

When the vaccination campaign was at its height, the report showed the death-rate rose 22% in three months, from July 1 to Sept. 30. These deaths were all among the recently vaccinated. Were the doctors and pharmaceutical companies **charged with murder** and given the death sentence? No. They "got by with murder;" they usually do.

This doctor-made epidemic never would have been brought to public attention if it had not been for an active, and well informed group of non-medical, health-minded citizens known as THE PITTSBURGH HEALTH CLUB. They, and their legal aid investigated this manufactured epidemic and brought the instigators to trial.

According to the Health Club's attorney:

"THE DIRECT MONEY LOSS TO THE CITY OF PITTSBURGH IN THIS VACCINATION RAID in 1924 was \$3,096,616 of which the doctors took \$2,000,000. .

"This does not represent the indirect losses such as deaths, permanent injury, business loss from work, etc."

Every city and town today should have an active, capable, and well prepared NON-MEDICAL health group such as those in Pittsburgh and Kansas City to warn the people against the many questionable practices of the medical doctors, because they continue to stage deadly vaccination campaigns, both large and small in all cities across the country every year, but most of them are not investigated or questioned.

We are in the middle of one of these medically-made epidemics right now. It is the SWINE FLU VACCINE epidemic. There was not a certified case of swine flu in the world when they planned it in 1976, but this multi-million dollar vaccine campaign was foisted on the people anyway, and now three months after it started there are 113 reported deaths and many more cases of paralysis from the shots. All these "murders" forced the public officials to halt the vaccinations. However, the doctors and vaccine makers have stated in the papers that they will try to lift the ban and continue the vaccinations — poisoning and killing more people and refusing to take the blame, because it is profitable.

That is why this book has been rushed into production — unfinished — to warn the people and prevent more disasters from the vaccines. The chapter on swine flu and a few others are included in this advance edition, and the rest will be available later, for those who

send for them.

## POLIO VACCINE EXPOSE' BLOCKED BY AMA

After reading of the above court cases in Pittsburgh and Kansas City people may say, "That happened way back in 1921 and 1924; that couldn't apply to us now in 1977." Oh, yes it can; it's being done right now again with the swine flu racket. They — the vaccine promoters — should be investigated, prosecuted and stopped permanently.

In 1954 when the vaccine promoters were building up their nation-wide polio vaccine campaign, I wrote a book of facts trying to warn the people against the Salk, Sabin, and Cutter vaccines which were bound to cause widespread death, paralysis and financial loss to the taxpayers. The Better Business Bureau — arm of the medical and drug trusts— blocked me from getting any advertising notices in the papers, radio, TV, etc. But I got some of the books out to as many people as I could anyway. But the "medical dictatorship" decided they were not going to let me tell any more people about things they had kept suppressed, including the court cases. You didn't read of those investigated and prosecuted medical rackets in the papers did you? I had to "dig" for that information. In order to stop my book and put it out of circulation, they had it barred from the mails — without any legal grounds. I had taken it (the manuscript before printing) to a lawyer and had him examine it to see if it was legal. He said, "It is all in order — nothing against the law — but it is dynamite."

I then took it to the Post Office in Los Angeles and had them go over it to see if anything was against their regulations. They said, "It is all in order and not against our rules, not libelous, not obscene, not anti-American, not fraudulent."

So, I had it printed and distributed until the medical "dictatorship" issued orders to the Post Office to bar the book from the mails. This they did, although they had told me it was all in order and legal for the mails.

It's hard to believe that one branch of the business (medical) in this country is so powerful that they can force the Post Office to break the law and bar a book they have approved — a book which is designed to save lives.

In the hearing, the opposition said they barred my book from the mails because it disagreed with accepted medical opinion.

It seems I was the only one with a "fighting book" out to condemn the polio vaccinations, so when it was eliminated and I was threatened if I sold it, distributed it, or even gave it away, the medical poisoners had a clear field to sell their poison vaccines without hindrance. So they continued selling polio vaccine and are still at it, even though it has killed and paralyzed thousands. Many law suits were filed against the vaccine makers and won, and they, the vaccine promoters, had to pay millions of dollars in damages, but they make more in sales than they have to pay out in damage suits so they consider it a good business venture anyway. This is the reason why people rarely hear anything against vaccination; those who raise a voice against it are silenced.
